

COMFORT

Cook in a cool, comfortable kitchen this summer. An oil cook stove is comparatively inexpensive to buy and it will soon pay for itself in comfort and lower fuel expense. Meals in a jiffy, and a cool kitchen in summer. Bakes, broils, roasts, toasts. Better cooking because of the steady, evenly-distributed heat. More convenient than a wood or coal stove for all the year 'round cooking, and more economical.

The long blue chimneys prevent all smoke and smell. In 1, 2, 3 and 4 burner sizes, with or without ovens. Also cabinet models. Ask your dealer today.

PORTLAND PREPARING FOR BUYERS' WEEK

During Buyers' week at Portland, August 6 to 11, the Portland Chamber of Commerce intends to make a special drive on the education of merchants in the use of advertising space in the country press. Editors of all Northwest newspapers have been invited to be present. Advertising matters will be discussed Wednesday night, August 8, at the Auditorium, where W. H. Farley of Dayton, Ohio, is to be the speaker. At the Friday night banquet, A. E. Voorhies, publisher of the Courier at Grants Pass, will present the attitude of the country press regarding the use of space for promotion purposes as compared with the amount of advertising space purchased. It is probable that the Chamber of Commerce publicity department will be represented by Mark Woodruff, and that some expert advertising man will talk to the merchants present on the best results to be obtained from advertising and the advantage of using liberal space.

Through committees the Chamber is now attempting to secure advertising space for the country press from the big manufacturers and wholesale houses of Portland. Phil S. Bates, secretary of the State Editorial association, promises the attendance of 100 editors.

This year the Buyers' week attendance is going to surpass all records at Portland. Merchants in numbers from California, Idaho, Montana and Washington, are already sending in their acceptances, while every city, town and village in Oregon will send one or more retailers.

The program of amusements will embrace a number of novelties. The ship building plants will be inspected, and a trip to Oregon City's paper mills will be made on one afternoon. There will be a luncheon and a dinner every day, with theater parties every night. All entertainment is furnished free, and railroad fare is refunded to merchants who make purchases amounting to more than \$500.

The government of Peru has offered a prize of \$500 for the best text book teaching temperance for use in the public schools of the country. Intemperance has become a serious problem in the republic, especially in the mining regions, and it is hoped that the introduction of the teaching of temperance in the schools will have salutary effects. The texts submitted, which must be in the Spanish language, will be passed on by a jury composed of the director of public instruction, the director of the normal school for men, a member of the temperance society, and one teacher from the Lima public schools.

The coveted feathers of the mamo bird were a small tuft about an inch long beneath each wing. The royal cloak of the Hawaiian king Kamehameha I, made of these rare feathers was four feet long and eleven and one-half feet wide at the bottom. This cloak of mamo tufts is said to have been buried with one of the later Hawaiian kings. The plumage of the mamo was generally black excepting the lower neck and parts of the wings which were yellow.

Shipments from Java reached 36,000,000, an increase of 12,000,000 pounds over the previous year. Shipments to China showed a steady diminution.

Liver Trouble.

"I am bothered with liver trouble about twice a year," writes Joe Dingman, Webster City, Iowa. "I have pains in my side and back and an awful soreness in my stomach. I heard of Chamberlain's Tablets and tried them. By the time I had used half a bottle of them I was feeling fine and had no signs of pain." Obtainable everywhere.
