Phone 701 The Linotype Way is the Way that Wins.

Official paper of the Town of Gresham Official paper of the Town of Fairview.

Entered as second-class matter March 2, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

The most direct route to the waste basket and the junk dealer's cart. In these days when the newspapers are suspending their free list cutting down their exchange list, and adopting all sorts of devices to make a pound of paper do the work of a pound, what possible excuse is there for using perfectly good white news print by the ton for the recording of "news" that pretty much everybody has already read?

ERA OF PROSPERITY.

While Oregon and the other Pacific coast states stood by with eager eyes fixed on the eastern states, which were reaping millions out of the war situation for more than two years, there was no spirit of envy. At least a small portion of the prosperity of the east was sure to drift this way in any event although the state was being depopulated to some extent by the calls for more workers in the districts enjoying such great prosperity.

But now the wave has crossed the continent. There are evidences that the west will get a belated share of the prosperity that is now covering the whole country, although there is an element of restlessness that must be overcome. The activities of the I. W. W. will be suppressed, or at least made ineffective, but not without some trouble and loss in many places.

The labor situation in Portland remains at normal, and there are no reasons outstanding for expecting disturbances in the near future. Negotiations are proceeding for increase in wages in one or two lines, but there is no feeling of unrest generally prevalent among the mechanics of that city.

The ship yards are going ahead and if labor strikes can be avoided, there is every reason to believe that Oregon is entering on an era of prosperity that will not only last for a period of years, but will affect every section of the state.

In the minds of many thinkers it is believed that the world will never again abandon wooden ships as commerce carriers. A fleet of five wooden ships can be built and operated for the cost of one large steel vessel. If the demand for wooden ships shall continue the Northwest must supply the greater portion of them and in their construction, a great army of men will be employed. Up state districts will supply the food and clothing and other necessities for these workmen and their families.

The outlook for wheat this year should give us an optimistic feeling despite the fact that everyone says there is a shortage. It is true that there is a shortage of winter wheat in the United States, but the spring wheat crop is in excess of last year. The total excess is 13,114,000 bushels according to the August crop report. Potatoes, covering the whole country, show 182,000,000 bushels over last year's production. In wheat Oregon is behind, but in potatoes this state is ahead of last year.

The first year's cost of the war is going to be about \$11,000,000,000. That means a per capita of \$110, or \$174,250,000 for this state, with its estimated population of 675,000. It begins to look as if each person will have to hand over every dollar and get about a dime in exchange.

A friend has asked us to clip out what good war poetry we see in the exchanges and mail it to her in an envelope. We shall be pleased to accommodate her if she will come around with a wheelbarrow every day for the bad war poetry.

Somebody has figured it out that the war is costing England \$405 a second. When it comes to figuring out such painful details it is just about as time to set the clock back an hour so as to conserve daylight for other work.

An Omaha lady is urging the girls to kiss the soldier boys good-bye. If the Portland girls were to announce a policy like that there wouldn't be enough men left in the city to keep the pool halls running.

Six brothers in North Carolina were drafted and none of them claimed exemption. Perhaps they remembered what General Sherman said and preferred war to North Carolina.

June honeymoons are over and if they are not matrimonial pacifists the bride is probably thinking of a year's residence at Seaside.

If there is to be an unpopularity contest in this country we'll put Senator LaFollette up against the I. W. W. any time in the week.

General Pershing wishes an army of picked men and it must be admitted that the exemption boards are trying to gratify him.

The A. B. ELLIOTT CO. WANTS of Powell Valley

Bring your 5-gallon coal oil cans, we fill them for 55c

CHAMBERLAIN'S BILL.

The plan outlined in Senator Chamberlain's bill for universal military training now before congress is a well thought out measure. It has been approved before in these columns and is in line with our ideas expressed more than two years ago, for it will bring together young men from all walks of life and from all parts of the country; boys from the homes of luxury and boys from the homes of poverty. It will put them in the same uniform, they will have the same duties to perform and will receive the same training without any distinction. This will break down caste, remove misconceptions. It will integrate us into a real nation; it will teach our young men to think in natural terms and make democracy a living thing instead of an empty pretense.

Congress can do nothing more necessary to aid us in the present war and insure the future safety of the nation and at the same time the regeneration of American manhood, than to pass something like Senator Chamberlain's bill, and this should be done without delay, the training under it to begin as soon as the men called for service by the selective draft shall have vacated the cantonments and training camps now in use or under construction.

The war college graduates are speculating on what would happen if Russia should quit. Russia isn't quitting yet. She seems to be headed for the Pacific side of the continent and is making real speed in that direction.

One of the diet sharps tells us there are 1305 calories in a pound of chicken to 229 in a pound of carrots. That is the principal reason why we prefer the chicken to the carrots.

We suppose, of course, that you are saving up your money so that you can get in on the next Liberty loan.

However, the joy riders don't seem to be in the least alarmed about the danger of a shortage in the oil supply.

Just the Thing for Diarrhoea. "About two years ago I had a severe attack of diarrhoea which lasted over a week," writes W. C. Jones, Buford, N. D. "I became so weak that I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Many druggists recommend this remedy because they know that it is reliable. Obtainable everywhere.
