MASTERS' MEETING WITH MULTNOMAH

Multnomah grange will meet Saturday,
August 25. We expect the Masters,
Overseers and Lecturers to meet with
us on that date. Let the patrons all
turn out and give them a hearty
welcome, also we wish to see as many
of the Masters, Overseers and Lecturers
present as possible, as our brothers are
to furnish the program for the lecture
hour, and we expect something very
interesting. The sisters will furnish
the dinner and we also expect something
interesting at that time. All remember
the birthday offering, who have
birthdays in August, as there is sure
to be a nice birthday cake in waiting
for them. The sisters will furnish
the program for September and the
brothers the dinner, and see which
are the best. Do not forget the date
and place of meeting.

MRS. G. W. ALLDER, Lecturer.

HURRAH! RINGLING DAY ALMOST HERE

The big event for which the youngsters
and grownups have been impatiently
waiting is drawing near, for on Monday,
August 27 Ringling Brothers' circus
is to exhibit afternoon and night in
Portland.

Expectancy never ran so high before
and it is likely that this district will
send a large delegation to feed the
elephants. Unusual interest centers
around the gigantic spectacle, "Cinderella,"
with which the famous showmen are
this season opening their wonderful
main tent program. "Cinderella" is
probably the best loved of all fairy
tales and to see it produced with more
than 1000 persons, hundreds of dancing
girls and glorious pageants, indeed
gives promise of making "childhood's
golden dreams come true." In the same
great tent, will come the marvelous
circus numbers in which 400 men and
women performers, scores of trained
animals and a galaxy of special
features are introduced. The majority
of the acts are entirely new to
America, the Ringling Bros. having
secured the pick of all European
performers who have been obliged to
seek engagements in this country.
The all-new street parade will take
place show day morning.

Just as men have developed from their
savage state into pleasant civilized
beings, so dogs and cats and horses
and hogs and other domestic animals
are very different from the wild
things that were caught in the forest
and trained to usefulness, but there
are some habits inherited from their
far-away ancestors which they still
retain, and by which they are distinguished
one from the other. We never question,
for instance, why a horse runs so
swiftly and has such power of endurance,
but we must remember that his
ancestors had to be and defend themselves
from the wolves—their greatest enemies—
and that their rearing and plunging
was also a former means of defense
if the enemy sprang on their backs.
Their neigh was a watchword and
call when wild horses went in droves
and some sort of a signal was necessary
to keep them from straying.

ENNEBERG CASE HAS NEW

Continued from page 1

tract of Record), uncommunicated to
claimant as aforesaid, may pass as
a decision, to-wit:
"7th 59 Oct. 14, 15 HCEA 10, 15 Oct.
"in full"
15, 15 EGT WmAM HB"

If this be the decision, I am not
surprised that the baby has been
abandoned by the genial Assistant
Attorney General, who by absence of
reference to it in his brief, has
ceased to claim it as a decision legitimate
or otherwise.

"In all court proceedings under
and pursuant to this Act the decision
of the commission shall be prima
facie correct and the burden of
proof shall be upon the party attacking
the same."

Counsel for Appellant has also re-
frained from referring to the fore-
going heretofore-cherished provision
of the Act, which Act has never
been, and in my opinion never will
be, on good terms with the Constitu-
tion. So, I understand Mr. Benjamin
himself is ready to concede that
the prima facie case and presumptive
correctness of the commissioners' "con-
struction of the law and the facts"
on this double-headed question of
appeal, have been overcome by the
well-considered decision of the lower
court and regular verdict of the jury.
But I cannot understand why, or how
except on the chance of cheating a
cripple, he expects to prevail against
this motion in the absence of more
evidence instead of less than that on
which the trial court based its decision
and overruled the motion.

We are advised by counsel that
Lord's Oregon Laws, Sec. 554, "only
requires so much of the record as
may be necessary to intelligibly pre-

sent the question to be decided by the
appellate tribunal", but there is no
section of the statute supporting a
trial by the appellate court of an
issue of fact, like the question of
appeal to these two courts, without
any evidence of the lower court be-
fore it except that favorable to the
one side,—such as Appellant's affidavit
found by the trial court to be
untrue, and an alleged final-settle-
ment voucher proved to be obtained
by coercion, tainted with fraud and
repudiated by the commissioners
themselves.

There is no merit in the contention
that the court in this case rendered
a judgment for damages and there is
no truth in the statement.

"An appeal shall lie from a judg-
ment of the Circuit Court as in other
civil cases". Sec. 32, Chap. 112, Ses-
sion Laws of 1913.

There is surely "something rotten
in Denmark"—something unjust
and tyrannical,—if the law like the
foregoing is administered as inappli-
cable to a litigant like the State In-
dustrial Accident Commission, who,
unlike the penniless workman, has
limitless means at its command for
furnishing an appeal bond as in other
cases and for supplying a complete
transcript of the evidence as would
be required of the injured layman,
if he were appealing. It is high time
as well as high duty for the Supreme
Court to reverse, not the Enneberg
judgment, but the rule applied by
the Commissioners, that "to him that
hath shall be given and to him that
hath not shall be taken away."

Respectfully submitted,
MILO C. KING,
Attorney for Respondent.
