**The Child's Education**  
THE opening of a new school term naturally directs attention to education.  
WE take pride—and justly so—in our public school system; but the lessons of life are not all learned in the schoolroom.  
HOME influence plays a mighty part in shaping the child's character and destiny.  
THE thrift habit, once firmly instilled by the parent's example, stands throughout the years as a guide post on the highway to success.
