FOR THE FARMER

Is the Big Step Forward in Rubber Footwear

Positively the toughest, strongest rubber ever evolved goes into Goodrich Auto Tires. Think how they stand up for thousands of miles under the most terrific strain. Just imagine a Boot made of this same kind of rubber and in the same way—

And remember "HIPRESS" is the only footwear in the world made after this process. It was invented by Goodrich and Goodrich alone uses it—and it is the first footwear ever made in brown and white colors.

"HIPRESS" was a success from the first—others have tried to imitate it, offering the same colors, claiming new processes, but they cannot duplicate "HIPRESS." "HIPRESS" is made with a RED LINE ROUND THE TOP—none genuine without this Red Line.

Brown "HIPRESS" Footwear for the farmer, made in all styles—hip boots, shorts, shoes, etc. See styles at

Mrs. Rose Metzger had a narrow escape from serious injury, perhaps death, last evening at the fountain street intersection. She alighted from Charles Witter's car between the fountain and the First State Bank, and while crossing to the corner in front of the cafe she was struck by a dairy automobile from the Winch farm which was going westward on the south side of Powell street. The dairy car was on the wrong side of the street but was not traveling fast, which last circumstance was fortunate. Mrs. Metzger was able to resume her work at the cannery this morning.
