Experience the Best Teacher.
It is generally admitted that experience is the best teacher, but should we not make use of the experience of others as well as our own? The experience of a thousand persons is more to be depended upon than of one individual. Many thousands of persons have used Chamberlain's Cough Remedy for coughs and colds with the best results, which shows it to be a thoroughly reliable preparation for those diseases. Try it. It is prompt and effectual and pleasant to take.—Adv.

CARL CONGDON FINDS WORLD'S WORST SPOT
England, Aug. 27.
Dear Folks:—Visited London yesterday. It sure is some large city but many years behind times. Tried to see all I could see of it. Saw the parliament buildings, the king's palace and many other places of interest. Also took in the tough part of town. Believe me it is some tough. The tough street is called Petticoat lane, and "Dirty Dick's Place" is the toughest. The place is full of skeletons of people and animals; is full of rats, cats, and spiders of all kinds. It is considered the toughest place in the world, and I don't doubt it. The town is full of "chickens" and they sure are not afraid to walk up and make themselves known.

We are a curiosity over here. One will be walking down the street and some one will slap us and say, "Hello, yank," and they would talk all day if we would stand and talk to them.

I took some pictures of the stores and streets, and if I can I will send them home to you. I don't know how long we will be here but think just a few days. We are just resting up. I am feeling fine and happy and don't worry. Love to all.
CARL.

LIBERTY LOAN BONDS ARE BEING ISSUED

The Federal Reserve bank at San Francisco begun issuing definite Liberty Loan bonds Wednesday, September 26th, but because of the enormous amount of labor attached to the issuance and delivery of these bonds it is not thought that those subscribing for bonds at Gresham will receive their bonds for some time to come. It is estimated that there will be required in excess of 8,700,000 pieces of which more than 7,000,000 are of the \$50 and \$100 denominations.

The emphasis laid by the Secretary of the Treasury upon the probability of a higher rate of interest for the next bond issue would seem to indicate it as a certainty, in which event practically all of the present subscribers will want to exchange Liberty Loan bonds of the first issue for those of the second for which subscriptions will open about October 1st and remain open until about October 27th.

Until June 15th, 1918, no charge will be made for the issue of bonds of small denominations in exchange for bonds of larger denominations nor for the issue of coupon bonds in exchange for registered bonds.

The First State Bank will take subscriptions for the second issue as soon as announced and the Federal Reserve Bank at San Francisco, fiscal agent for the United States, being much better organized for the work and prepared to issue definite instructions regarding the subscription, will enable the bank to give more definite instructions regarding the issue than was done on the last issue. For instance the bank will be in position to assure to all subscribers of \$50 and \$100 denominations that they will secure their full allotment and if they like, pay for the bond in full at time they subscribe. No one subscribing for more than \$100 will be sure of receiving his subscription in full until subscriptions have been closed.

The payment on installment plan will be similar to first issue except that payments may be made on installment dates only.
