

**THE UNIVERSAL CAR**

These are economical days and thus the Ford car becomes a more intense necessity than ever before, because by reason of its universal service it has become a large part in the "business of living"; besides, it takes less money for operation and maintenance than any other motor car. That this is not an idle boast is proven by the fact that there are more than two million Fords in daily service. More conclusive evidence of your need of a Ford car could not be given. Here it is, a daily necessity that is a daily economy. A variety of bodies to meet the variety of demand—from the "snappy" Runabout to the de luxe Sedan. We can make immediate delivery for a short time only. Buy when you can get delivery, for production is behind the demand all the time. Place your order at once as no cars can be delivered without your order being placed first.

**ESCAPED CONVICTS ARE ROUNDED UP**

Three negro convict-escapes from the Oregon penitentiary were captured yesterday—two of them at Troutdale early in the morning and the other later in the day several miles further west.

The men had escaped from Salem last week and had made their way this far. They were nearly starved

and one of them applied at the Sundial dairy for food. They got milk only but their appearance suggested that they were the escapes and Constable Squire was notified. He telephoned the sheriff's office and five deputies were sent out who effected the captures.

The negroes had boarded a freight train and were just about to get away. They were sent back to Salem last night.
