PRESIDENT KERR'S WORK.

The Oregon Agricultural College is doing, and has been doing a great work for the past ten years. With President Kerr at its head it has taken the place of third among the agricultural colleges of the nation.

Today, the farm lands of ten years ago in Oregon are hardly recognizable. We have produced a crop this year that would have been unbelievable a few years ago.

From the outset the college has been represented on the Central Food committee, which has carried on a production and conservation campaign so comprehensive and so minute in detail, that literally the whole state has been reached.

But, as a matter of fact, this is nothing new. The college under President Kerr has been trying to do it, and succeeding in some measure, for years. It has been uphill work, but steady even if slow progress has been made all along.

THE SUGAR SITUATION.

Gresham merchants who sell sugar are complying with the government's requirement that only one dollar's worth of sugar shall be sold to a family on stated intervals, and, also, all the other requirements that seek to hedge about the waste of this great staple.

United States, but, on the contrary, a large increase, according to a bulletin issued by the National City Bank of New York. The rest of the world, however, failed in its usual production and the situation in the United States is due to the world shortage, which has drawn from this country enormous stores of sugar.

Our sugar exports in 1914 amounted to 50,000,000 pounds; in 1915 to 55,000,000; and the estimate for 1917 is 1,250,000,000 pounds. Export values increased from \$2,000,000 in 1914 to \$77,000,000 in 1917.

The Bulletin asserts that we could be still much more economical than we are without doing ourselves any damage. Our consumption, per capita, is less only than that of Denmark and England in normal times, but it is greater than that of Germany, Norway, Sweden, Netherlands, France, Russia, Spain and Italy.

The comparison suggests that our sugar consumption could be still further reduced without doing great harm. Perhaps we have been extravagant in the use of this as in the use of other foods, the plentifulness of which resulted in waste.

BE CAREFUL.

It becomes everyone, and especially every loyal American, to be careful in speech. There is no curb on patriotic utterances, words of commendation of all who are engaged in any kind of service in the cause of freedom, words of encouragement for our officers and men at home or abroad.

But to utter any word that would tend to throw discredit on any worthy measure adopted by this country in connection with this war or against any endeavor of any citizen or soldier who is acting in response to his country's call is liable to give a wrong impression and reflect upon the good judgment of the one so speaking.

Even for anyone to go so far as to say that he could not conscientiously respond if called upon to shoulder arms in his country's defence, however honestly intended, is liable to be misleading and appear like an attempt to discourage those who from very conscientious reasons are willing to do their full duty.

A RED CROSS CHRISTMAS.

"Make it a Red Cross Christmas!" That would be our suggestion, and the goal would be 15,000,000 members for the Red Cross in the United States.

The Red Cross is today the most important organization not connected directly with any government. In all the world there is no other that is doing or can do the Red Cross work.

There was a Red Cross week not long ago. The people of the United States subscribed \$100,000,000 for the support of the Red Cross in that one week. That will not be enough for all its needs and there must be another "week."

Secretary of Labor Wilson enjoyed an Oregon turkey yesterday. It is that kind of fodder Oregon reserves for her guests, the home preference as a winter diet being fresh beef and potatoes, alternating with canned fruits and vegetables bearing the housewife's label.

Pretty soon there will have to be another liberty loan to pay the interest on the liberty loans that have been issued previously. In that way we will pay ourselves in interest what we have given to the Red Cross and Y. M. C. A. A regular whirligig, isn't it?

The International Stewards association says that a saloon free lunch is 90 per cent waste. That waste is no longer in evidence in the prohibitive states, but lots of people have been wondering for years what the stuff was.

BEATING THE TRAIN.

Almost every day we read of people being killed and injured at railroad crossings. These accidents were caused by automobile drivers trying to "beat the train to the crossing."

But there are thousands of other auto drivers in the United States who persist in trying to beat the train to the crossing, and it seems there will always be such people in the world. There are also people who insist on pointing unloaded guns at their friends or brothers; people who drag guns through fences or over logs by the muzzle; people who light fires with kerosene or mayhops gasoline; people who walk on railroad trestles and tracks; people who smoke cigarettes in hay lofts; people who hunt for gas leaks with candles; people who—but why prolong the list?

Every newspaper is full of them and the results of their acts. The doctor shudders when he reads them. The undertaker grins. And the gravedigger sharpens his tools and works overtime.

The attorneys named to advise the drafted men won't get any money out of the job, but maybe they will lay the foundations for a lot of legal work after the boys get back; also, they will have a fine lot of patriotism stored up for their next jury oration.

Furloughs for Yuletide week will be granted all men at army cantonments whose absence can be permitted in the opinions of the divisions commanders, to enable them to spend Christmas at their homes.

When the kaiser heard that the British had taken a 30-mile sector on the western front he extended the barred zone to the Azores. His great victory was duly announced to the people of Germany.

Last year we announced that S. P. U. G. meant the Society for the Prevention of Useless Giving. We have corrected it this year to mean Society for the Prosecution of Useless Germans.

Maybe the reason that Oregon is always at the top in war enlistments and subscriptions is that the people believe Uncle Sam is going to make the world safe for republicanism.

It is reported that the allies are getting the best of the submarine menace, but we're not prepared to say that the aforesaid menace is absolutely obliterated yet.

If that French custom of kissing men is brought home by our boys in France we are going to grow whiskers like a Russian's.

Just think of what a 24-carat snap the kaiser went out of his way to get himself jerked loose from when he started something!

If General Haig can keep up connections the Paris-Berlin Tank Line will be advertising in the railroad guides next year.

Anyhow, there doesn't seem to be a salt shortage, and it would be harder to get along without salt than sugar.

It seems that only an exorbitant price for gasoline will put a permanent check on the automobile thieves.

It looks as if a whole new set of lines would have to be framed up on the Italian front by the German army.

Separate war may look better to Russia than separate peace after the Bolsheviks gets through with her.

Community singing makes united people. It is the individual screech that is liable to produce a riot.
