ROSS BROWN OFFERED POSITION IN PARIS

Ross Brown, agent for the P. R. L. & P. company at the O. W. P. depot in Gresham, has been notified by the American Express company that his services are wanted in its banking division in Paris, France. If he accepts the offer he will be expected to leave here in about ten days.
Mr. Brown made application for the place earlier in the year, after working in the railroad office in Oregon City, and after a transfer to Gresham several weeks ago by the railroad company. He handles American express matter here and is fully conversant with the work. He went to Portland today for further information concerning the position offered and will know tonight whether he will accept the offer or not.

How to Prevent Croup.

In a child that is subject to attacks of croup, the first indication of the disease is hoarseness. Give Chamberlain's Cough Remedy as soon as the child becomes hoarse and the attack may be warded off and all danger and anxiety avoided.

Casualty lists from the war front contain the name of Lester Richey, Salem, Ohio, as having been wounded. Some concern was felt, as it was at first thought it might be Lester Richey of Gresham, Oregon. It is another Lester Richey, however, from Ohio. The Gresham boy is with Co. F., 4th Battalion, 20th U. S. Engineers, at the American University, Washington, D. C. He left here about three weeks ago.

TWO JERSEY HERDS SELLING AT AUCTION

Wendell Cleveland and B. C. Altman shipped twenty-five Jerseys to Myrtle Point yesterday where they will be sold at auction. Mr. Cleveland sent 12 cows and a herd bull. Mr. Altman had two young bulls among his dozen.

These animals are all choice registered and were among the best in the county. Mr. Cleveland has quit the dairy business and Mr. Altman is reducing his herd. Considerable regret is expressed that these animals should have to leave this neighborhood for another part of the state, but it is better than selling them to the stockyards.

BILLIONS LOANED TO OTHER NATIONS

The United States has loaned to other nations engaged in war with Germany something over three billion dollars, taking for the sums advanced the obligations of such nations, bearing the same interest and maturing at the same time as the liberty loan bonds.

The wisdom of this policy is beyond question. By strengthening these nations and making them as powerful and as effective as possible we are greatly aiding in the shortening of the struggle; we are doing much to insure an ultimate victory; we are doing only that which it is our duty to do toward our allies in this tremendous war against an autocracy which would debase and enslave all nations and men.

The fact that if we did not advance this money much of the work which the allies are doing would have to be done with American money and American men establishes clearly the intelligence and wisdom of our policy.

There is work to be done which

requires the expenditure of blood and treasure. In making these money advances to Great Britain, France, Italy and other nations we are lending money, which will be returned to us, instead of expending sums possibly as great, possibly greater, with no hope of return. In addition, we are saving the lives of American soldiers.

No policy the American government has pursued is wiser or more truly economical and patriotic.
