

America Unafraid

If our women *send* their sons, is it expecting too much for our men to *lend* their funds—in behalf of Freedom?

THE Third Liberty Loan is calling for patriotic investors.

DON'T wait to be solicited for *your* subscription. Volunteer today.

YOUR bank will be proud to serve as the financial recruiting station for your *volunteer dollars*.

LET *your name* be as near the top of Oregon's Honor Roll as possible.

IF you haven't the ready cash, ask your banker to explain the *pay-as-you-save plan*.

Tomorrow is LIBERTY DAY. Get Ready

If you can't go across to fight, you can do the next best thing by investing in LIBERTY BONDS to keep your boy or your neighbor's boy on the firing line.

- TO PROTECT YOUR COUNTRY.
- TO PERPETUATE AMERICAN FREEDOM.
- TO KEEP THE DEMON HUN FROM YOUR DOOR.

We can't act too quickly. The danger is imminent. We will be tardy at best. Don't stop to think, any more than you would stop to think whether to strike back if you were threatened by an assassin.

Will you jeopardize your liberty by failing to do your duty? He who hesitates is most assuredly lost.

All that your forefathers fought and died for will be lost. All that the patriots of '65 fought for will be lost.

Take Your Place as a Real American

Constipation and Indigestion.
 These are twin evils. Persons suffering from indigestion are often troubled with constipation. Mrs. Robert Allison, Mattoon, Ill., writes that when she first moved to Mattoon she was a great sufferer from indigestion and constipation. Food distressed her and there was a feeling like a heavy weight pressing on her stomach and chest. She did not rest well at night, and felt worn out a good part of the time. One bottle of Chamberlain's Tablets corrected this trouble so that she has since felt like a different person.—Adv.

CECIL DUKE WRITES OF TUSCANIA EXPERIENCE

Cecil Duke, who was on board the Tuscania when she was torpedoed by a German sub, has written his parents Mr. and Mrs. J. C. Duke, concerning his experiences. Two letters have been received since the first brief note telling of his safety. They are under dates of February 5th and 19th. In the first letter which was from Ireland, he writes of the good work done by the Red Cross and the Y. M. C. A., and says:

"I want to tell you that the Red Cross came to us fellows as soon as they could with tooth brushes, soap, razors, combs, brushes, extra clothes, scarfs and helmets and outfitted us in pretty good shape, to say nothing of the fruit and candy and other stuff. Also the Y. M. C. A. looks out for us, gives apples and good places in which to read and amuse ourselves. I can't say too much for either outfit and want you to tell some of those chronic kickers that they are all right and I'll fight them when I get home if they contradict me."

The second letter is written from England. In it Cecil writes more fully of the disaster than he had done before. He says in part:

"We were struck by a torpedo just after dark on the night of the 5th of February, and some of our boys were lost. It was a terrible thing. Some of my best friends I could not find tonight, after coming here. As you have perhaps read the particulars in the papers, I will not go into details. I was in an isolated part of the ship with about a hundred other fellows who had mumps when the torpedo struck. Of course I jumped out of my bunk and made for the stairs. I had all my clothes on except my coats, and as I went I grabbed them and my life belt. As we were in the very front of the boat I had to go clear to the back, where the life boat was which I was supposed to take. I got there and they could not get the boats launched, so we waited for about 40 hours, and believe me, we all got pretty nervous. Some of the fellows jumped over and were drowned. Others were picked up by lifeboats and by destroyers. After all the fellows had got out the boat onto lifeboats and destroyers, we pulled off for a port in Ireland and while on the trip, which took about five hours, I had my first seasickness, which with the mumps is not very pleasant, but I have not had any bad effects from my experience. After arriving in Ireland an ambulance took us to a little town, where we were put in a hospital and the Irish people certainly spread themselves to take care of us."

"The experience that I had was terrible, however, I am perfectly all right. Yesterday I left Ireland and tonight arrived at an American camp in England. It's a great place here, aeroplanes flying around in the air and soldiers of every country here. Some honor to be on the first torpedoed boat, isn't it?"

EMPLOYMENT SERVICE TO SUPPLY WORKERS

A special farm-service division is being established in most of the 100 offices of the United States Employment Service as one of the plans for meeting the labor requirements of the farmers. Special field agents are being sent into districts where acute farm-labor shortage exists or where unusually large numbers will be needed.

A weekly bulletin will be issued in which opportunities for farm employment and the needs of certain districts will be listed. Posters announcing the location of Federal and State employment offices are being hung in postoffices, railway stations, and other public places.

All third and fourth class postoffices, of which there are 55,000, are now authorized farm-labor employment offices. During the harvest season in certain states temporary offices will be opened in a number of cities for the purpose of furnishing accurate information as to where harvest hands are needed.

A weekly report of farm-labor conditions is being sent to the main office at Washington by all the branch offices and by many state employment offices.

Some Good Advice.
 "Don't think too much of your own methods. Watch other people's ways and learn from them." This is good advice, especially when bilious or constipated. You will find many people who use Chamberlain's Tablets for these ailments with the best results, and will do well to follow their example.—Adv.

Ford
 THE UNIVERSAL CAR

Like the regular Ford cars the Ford Model T One-Ton Truck is a real farm necessity, just as it is the necessity of manufacturer, contractor and merchant.

There is no question about it proving a money-saver right from the start. It is flexible, turning in a 46-foot circle; has 124-inch wheel base; the regular Ford motor with worm drive—and has proven as economical in operation and maintenance as the Ford Touring Car. The price of the truck chassis is \$600 f. o. b. Detroit. We urge placing orders without delay in order to get reasonably fair delivery. The demand is big—come in and let us talk it over.
