FAIRVIEW

D. W. McKay and R. E. Morrill were called to Portland on Monday afternoon to act as pallbearers at the funeral of Charles E. Stuart, who died in Portland July 14, at the home of his daughter. He was 86 years of age, and was a resident of Fairview for a number of years.

Mrs. Eliza Stone will have an ice cream social on her lawn next Saturday night for the Presbyterian Women's society.

Highway visitors from Fairview on Sunday were Mr. and Mrs. Art. Copeland and son, Mr. and Mrs. J. W. Moller and children. They went to Eagle Creek where they walked two and a half miles back in the mountains to the punch bowl.

Miss Amy Douthit is spending a few days with her sister, Mrs. J. W. Moller, returning every morning to her work in Portland.

Mr. and Mrs. Windle, Mr. and Mrs. D. Dunbar, Mrs. Eliza Stone and family, Mrs. Jessie Miller and John Bliss and family spent Sunday at the chalet on Gladstone Park.

A meeting of grangers will be held at the Presbyterian church on Thursday evening to practice the selections for the grange field day music, in preparation for the general chorus practice at Gresham on Sunday afternoon.

SCENIC

Mr. and Mrs. Payne, of Lents, were guests of Mr. and Mrs. J. R. Duncan one day last week.

Mr. and Mrs. I. N. L. Shriner entertained their daughters Mrs. William Fredeen, late of California, Mrs. Albert Bankus of Camas, and Mrs. Wm. Dietrich of Portland, last week.

C. C. Jack enlisted in the engineers corps and left Monday for Camp Lawton.

Lieutenant Stephens and wife were guests of Mr. Stephen's sister, Mrs. B. C. Altman, one day last week.

Mrs. McElroy, of Portland, spent the day Wednesday with her children who are spending a month with Mrs. D. D. Jack.

POWELL VALLEY

Axel Johnson, who was called in the draft of June 25 but was sick with measles at the time, left Saturday morning for Camp Lewis.

County School Superintendent W. C. Alderson and Miss Alice Joyce of the O. A. C. extension course were in Powell Valley recently in the interest of the Industrial club of the school. Mrs. Alta Gentry was appointed advisor for the club. She will work under the direction of Miss Joyce and will do all possible to encourage work among the boys and girls in that line.

CRABS ARE EATEN BY ROCK AND LING COD

Rock cod, ling cod and other fish are reducing the number of crabs along the Pacific coast in many places to serious extent, according to G. F. Sykes, professor of zoology in the Oregon Agricultural College. Fifty-nine crabs were taken from the stomach of a single ling cod.

Investigation of the stomachs of fish is being done in connection with the work of surveying the marine forms in the vicinity of Yaquina Bay Newport, which is continued from summer to summer. One object of the study is to determine the variety and number of animals which have a possible commercial value, as foods, fertilizers and oils. Seven species of edible clam have already been found in Yaquina Bay distributed from the jetty nearly to Toledo. The conservation and cultivation of well known fish and shell fish, points out Professor Sykes, can only be brought about by thorough study of their food habits.

Don't delay buying that Blue Flame oil stove, the price will surely advance. See L. L. Kidder Hdw. Co.

Doing Good.

Few medicines have met with more favor or accomplished more good than Chamberlain's Colic and Diarrhoea Remedy. John F. Jantzen, Delmeny, Sask., says of it, "I have used Chamberlain's Colic and Diarrhoea Remedy myself and in my family, and can recommend it as being an exceptionally fine preparation."—Adv.

TROUTDALE

Sunday was A. D. Kendall's birthday, and Mrs. Kendall invited in a party of neighbors and friends to surprise him Saturday evening. A happy evening was spent, the older folks playing cards, while the young people enjoyed dancing in the kitchen. Ice cream and cake were served.

Mrs. Martha Bramhall, who is making a visit here with her son Harry, spent several days last week visiting her sister, Mrs. Henry Parsons.

At the meeting of the Troutdale Ladies' Aid last week it was decided to have no meeting in August. The next regular meeting will be held Wednesday, September 4th.

Mrs. Delaney and son Leland left recently for The Dalles, to spend the summer with Mr. Delaney, who has work there.

Ned Laudan, who is enlisted in the spruce division of the army, came over from Vancouver Sunday to visit his parents here.

The family of Mrs. Flora Parker is in quarantine with the small pox now.

Mrs. N. P. Wallace and daughter, Mrs. Myrtle Kidder, were at home here last week, putting up the berries on their place. They returned the latter part of the week to the camp near Tillamook.

Some American Needs for English Clay

Most of us think clay is something as common and abundant as sand or gravel. Consequently it comes as a surprise to be told by the Shipping Board committee on Mineral Imports in Washington, that even in this day of great shortage of ocean going ships we have to import from England every year 200,000 to 250,000 long tons of clay. Last year we imported more than 250,000 tons over the ocean.

Furthermore a great part of this clay comes over in steamers loaded full and the rest in big steamers loaded with clay up to 50 per cent and more of their maximum carrying capacity. These ships put into Fowey, England for their freight. To get this clay on and off the boats requires ten days on each cargo. An insignificant percentage of the clay is shipped as balast. This represents small lots loaded into big liners at Liverpool. But it will be seen that the importation of English clay consumes an important amount of ship tonnage measured in days time lost because of natural delays incident to the transport of this freight.

Why do our manufacturers pay the high freight rates now necessary in order to obtain an article like clay from England? There is, as we all know, an abundance of clay in this country. A great deal of high grade clay is produced here, and of a character suitable for pottery, porcelains and other articles which require clays of special excellence in their manufacture. But not much over half of clay of this grade that our industries require is domestic. When war broke out in 1914 only a third of it was domestic. We have not been able to develop and equip our deposits fast enough to make these English clay imports unnecessary. In fact it is doubtful whether we will produce as much high grade clay in 1918 as we did in 1917. Our manufacturers want the clay but they can not get anywhere near as much as they want.

The reduced output is due to railroad and operating conditions and is not related to the character or size of the deposits which are capable of large production.

Domestic producers do not mine their clay as quite as cleanly as their English competitors. Nor is the domestic clay as uniform in character. It will not bring the high prices paid for English clay. But more could be sold if it could be produced and carried to its market. Still more could be marketed if cleaner more uniform clay were produced, for in that event the consumers would use a greater percentage of domestic and correspondingly less English clay in their mixtures.

However, our complete dependence upon English clay continues. We must rely on English clay as a chief ingredient of the dishes we eat from, the paper in our books and magazine, the porcelain in our electric light sockets and half a dozen other articles of less general use.

Fortunately it is a fact far less English clay is necessary to proper manufacture of paper than is now used. Besides domestic clay there are many other substances of domestic origin that could be used in the body, not of the finish, of this paper. Also over half of the English clay we use is consumed in making paper. So that if a shortage of English clay should develop it would not be highly serious until the shortage became very great, until there was only a half of the normal supply or less available.

Huts in Porto Rico.

Three Y. M. C. A. huts have been erected at Camp Las Casas, near San Juan, Porto Rico, where Porto Ricans are being trained for service.

REPORT OF THE CONDITION OF BANK OF GRESHAM NO. 65

At Gresham in the State of Oregon, at the close of business June 29th, 1918.

RESOURCES	
Loans and discounts	\$120,554.96
Overdrafts, secured and unsecured	134.50

Other resources	1,269.95
Total	\$184,479.82

LIABILITIES	
Capital stock paid in	\$15,000.00
Surplus fund	1,500.00
Undivided profits, less expenses and taxes paid	1,452.68
Postal savings bank deposits	771.51
Individual deposits subject to check	82,041.34
Demand certificates of deposit	10,092.30
Cashier checks outstanding	6,066.40
Time and savings deposits	54,555.59
Notes and bills rediscounted	\$153,527.14
Bills payable for money borrowed	3,000.00
Total	\$184,479.82

State of Oregon, County of Multnomah, ss.
I, K. A. Miller, Cashier of the above-named bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.
K. A. MILLER, Cashier.
Subscribed and sworn to before me this 11th day of July, 1918.
JAS. ELKINGTON, Notary Public.
My commission expires Aug. 8, 1921.
Correct Attest: W. E. Markell, Emanuel Anderson, A. F. Miller, Directors.

MULTNOMAH GRANGE CHANGES MEETING DAY

The July meeting of Multnomah Grange will be held at its hall at Orient on July 29 instead of the 27th. The change is made on account of the grange field day. The program will be in charge of Mrs. Margaret Wheeler and is the first of a series of contests for membership, attendance and excellence of program. Mrs. Wheeler will manage two programs and Mrs. Myrtle Ball, the other captain, two programs. A helpful meeting is assured and all members are urged to be present. Visitors are especially invited to enjoy the program during the lecture hour.

Whales.

Whales are able to attain such an enormous size because their bodies are supported by the water in which they live. A bird is limited to the weight which its wings can bear up in the air. A land animal if it becomes too large, cannot hold its body off the ground or readily move about, and is doomed to certain destruction. But a whale has to face none of these problems and can grow without restraint.

Serves Million Men.

One Y. M. C. A. hut overseas has already served more than a million soldiers and sailors.

Hot Weather Apparel
