YOUNG WOMEN ARE WANTED FOR OVERSEA

The Woman's Committee, Council of National Defense is sending out an appeal calling for 25,000 young women to join the United States Student Nurse Reserve and hold themselves in readiness for service as nurses.

The war is creating an unprecedented demand for trained nurses. Only those who have taken the full training course are eligible for service with our forces overseas. These nurses are being drawn largely from our hospitals at home.

Age—The call is for women between the ages of nineteen and thirty-five.

Qualifications—Intelligent, responsible women of good education and sound health are wanted—the pick of the country. A college education is a valuable asset, and many hospitals will give credit for it.

Enrollment—Women will be given an opportunity to enroll in the United States Students Nurse Reserve in any one of three ways:

(1) As engaging to hold themselves in readiness until April 1, 1919, to accept assignments to nurses' training schools. These women will be sent to the schools as fast as vacancies occur.

(2) As desiring to become candidates for the Army Nursing School recently established by authority of the War Department, with branch schools in selected military hospitals.

(3) As engaging to hold themselves in readiness until April 1, 1919, to accept assignments to either a civilian training school or the Army Nursing School. Those who so enroll will be called where the first need arises.

There are 1,579 nurses' training schools in this country. Their need is as great and imperative as that of the Army School of Nursing. Those who enroll for these schools will be assigned as vacancies occur.

The enrollment card will indicate two classes of registrants—Preferred and Deferred. The Preferred class will be those who are ready to accept assignment to whatever hospital the Government directs them, although they may state what training school they prefer to be sent to. Those who register in the Preferred class will be assigned first, and all possible consideration will be given to their preference as stated.

The Government relies on the patriotism of those who enroll to fill out Preferred cards if they possibly can, thus volunteering to go where they are most needed.

Nobody will be assigned to any schools whose conditions of training are not approved by the State Board of Nurse Examiners.

Terms of Training—The term of training varies from two to three years, according to the requirements of the particular school to which the student nurse may be sent. No course takes less than two years nor more than three.

What the Training Course Prepares For—At present every woman who completes satisfactorily her training in any accredited school is eligible for service as an army nurse at the front and stands a chance of being assigned to duty abroad. At the same time she will be qualified to earn her living in one of the noblest professions open to women.

Practical nursing work is a part of the work of every training school, and the student nurse is not only learning to serve but serving her country from the outset.

Finances—The student nurse gets her board, lodging, and tuition free at practically every training school, and in most cases receives a small remuneration to cover the cost of books and uniforms. After graduation she has an earning capacity of from \$100 to \$300 a month.

An Honorable Service—Ever since the days of Florence Nightingale the nursing profession has been one of especial honor. It was never so honorable as it is today. The army needs every nurse it can get to "keep up with the draft."

Are You One of Them?

There are a great many people who would be very much benefited by taking Chamberlain's Tablets for a weak or disordered stomach. Are you one of them? Mrs. M. R. Searl, Baldwinville, N. Y., relates her experience in the use of these tablets: "I had a bad spell with my stomach about six months ago, and was troubled for two or three weeks with gas and severe pains in the pit of my stomach. Our druggist advised me to take Chamberlain's Tablets. I took a bottle home and the first dose relieved me wonderfully, and I kept on taking them until I was cured."

Save for the country's sake.

STRONG "outside connections" are fundamentally important to any bank that seeks to serve its community well. City terminals and markets must be kept in constant touch so that business men and farmers, shippers and manufacturers can cooperate to the best interests of themselves and their Government.

No financial institution in this community has more advantageous outside connections than we have in the numerous correspondents with which we transact our commercial business in the various large cities of this state and country.

Doing Good.

Few medicines have met with more favor of accomplished more good than Chamberlain's Colic and Diarrhoea Remedy. John P. Jantzen, Delmea, Sask., says of it, "I have used Chamberlain's Colic and Diarrhoea Remedy myself and in my family, and can recommend it as being an exceptionally fine preparation."

Some people think that a half-cent piece would aid greatly in household economy. Never in the world. Mint a half-cent coin and it would prompt dealers to add 2 1/2 cents to everything that splits the nickle.
