

Are You in Trouble?

Thinkograph

Every city in America, some day, will appoint or elect a Personal Trouble Specialist whose duties it shall be to prevent the sorrows, crimes, murders, insanity and suicides rather than later allowing the State—you and I—to support, for years, or to bury, the unfortunate.—Lucas.

TO YOU:—Many of you have read my articles in the Portland Daily papers the past three years. I have given you, therein, a little idea of "My Mission in Portland." Nevertheless, at this time, for the benefit of others who have not heard of me although desirous of knowing what I am and what I do, I'll say, briefly, (1) I am a Personal Trouble Specialist—one who solves Life's Problems, such as all Personal, Domestic, Love and Business troubles, preventing many divorces (sometimes advising a divorce), crimes, business failures, insanity, murders and suicides. (2) I am a Psycho-Analyst—one who, after a diagnosis and psychosis, treats all Neuronic, Mental and Physical Diseases, eliminating pathogenic ideas of fear, worry, accidents and sorrows caused by psychic trauma. These suppressed ideas produce functional disorders as well as real mental and physical diseases which lead to insanity and suicide. Very sensitive people who fear and worry about almost everything—those who are mentally depressed, call upon me, as I am the only Mental and Physical Specialist in Portland or the Western States. (3) I am a Vocational Director—one who, after a physical, mental and physical examination, informs you about your natural or best vocation. The great majority—over 90 per cent—of people are unhappy, unhealthy and unsuccessful because they are "misfits" in life—working and slaving in the wrong vocation, always wearing and worrying their lives away. You have a "place" on earth that you can find and fill more thoroughly and successfully than any other person. I can find that "place"—vocation—for you.

I may add that I have had 28 years' experience in teaching and treating humanity. My original methods in my new professions can be understood only by an educational campaign while I am alive—not after my death—that's why I advertise.

If you are in trouble; if you do not know just what to do about that which is causing you wakeful nights or restless days, do call upon me. I can help you. Tell your friends, I can help them also out of any trouble. You can be healthy! You can be happy. Tell everybody!

YOURS FOR HUMANITY.

DR. ALZAMON IRA LUCAS,
Personal Trouble Specialist.

Protect Your Farm Implements

Millions of dollars worth of farm implements are ruined in the United States by not protecting them from the weather.
Why not build a shed for that new tractor?
Lumber is lower now than it was three years ago in proportion to other commodities.

In 1914 an 1100 pound steer would buy app. 3300 feet of lumber. Today it would purchase 4800 feet.
In 1914 36 hogs would buy the material for a 34x48 barn. Today 36 hogs will buy the same material and leave a cash balance of \$500.

GRESHAM LOCALS

Ellsworth Baker, one of the navy boys stationed at Seattle, was an over-Sunday visitor with his parents.
Mr. and Mrs. John Bliss and family and Mr. and Mrs. C. G. Robertson of Dundee motored to Dayton on Sunday.

Rev. Alexander Beers and wife, of Portland, were guests at dinner yesterday of the former's sister, Mrs. Henry Metzger.

Fred Hoss, who was called to the service September 7th, is located at Camp Lewis but has not been assigned as yet owing to his eyesight being defective.

Miss Marie Rogge from the main library in Portland has taken charge of the Gresham Branch and will be here indefinitely. Announcements concerning the library may be found under the library notes.

A letter from Mrs. O. E. Milleson to her mother, Mrs. Henry Metzger, states that Mr. Milleson has left the electricians' school at Manhattan, Kansas. His destination was unknown at the time of writing.

Mrs. C. Humason received a letter yesterday from her son Raymond, in England, in which he spoke of watching American soldiers come ashore and among them found Bert Metzger. He also mentioned seeing Emerson Brown.

Mrs. Jennie Oswald, who recently underwent an operation at Good Samaritan hospital, Portland, has been brought to the home of her mother, Mrs. D. W. Metzger in Gresham, where she is rapidly regaining her strength.

Mrs. Hazel Maryott is in Gresham this week acting as one of the demonstrators for Fisher's Flouring Mill company. The other demonstrator at the fair is Mrs. H. W. Bryan, of Seattle, wife of the manager of the company's exhibit.

F. A. Halliday is visiting friends and old neighbors in Gresham this week and attending the fair. He recently returned from a trip east. He reports a very pleasant summer. He will go in a few days to Shaw, Oregon to visit his daughter, Mrs. Ernest Peterson.

Principal M. B. Signs, of the Estacada high school, was a Gresham visitor Saturday. He says the enrollment in the Estacada public school is larger than last year and that of the high school is only slightly less than one year ago. The Estacada high school has a service flag with thirty-six stars.

Miss Della Hughes commenced work this morning in the office of Olds, Wortman & King in Portland.

Mrs. A. Hughes has received the word from her son, Lieut. H. H. Hughes, that he has arrived at the officers' training camp in Ft. Riley, Kansas, where medical men take their training.

Mrs. Robt. Rogers and Mrs. Myrtle Carnine of Condon, Oregon, mother and sister of Mrs. H. W. Cooley and the latter's aunt Mrs. Jas. Barton and her daughter, Mrs. Mary Weaver from Fremont, Michigan, and Mrs. Cooley's sister, Mrs. Ed. Cochrane of Myrtle Creek, Oregon, were here visiting last week. Mrs. Cooley's cousin, Walter Huffman of Portland entertained the party at 6 o'clock dinner at the Portland hotel on Tuesday evening. The party took a trip on the Columbia Highway and the Michigan people were greatly pleased with the scenery.

NEW UNIFORM FOR Y. W. C. A. WAR WOMEN

Within a few days a certain uniform will be seen with increasing frequency, contributing a pleasing note to the picturesque side of war—the horizon blue uniform of the war workers of the Young Women's Christian Association.

Orders have come from national headquarters of the Y. W. C. A. requiring every woman worker identified with the field activities in the present nationwide educational campaign to wear the uniform.

Consequently, hundreds of women will soon appear in the official uniform, already recognized everywhere in France as marking the wearer among the forces of one of the most valuable agencies in war work.

When the order went out from the war department that all civilians working in camps must wear uniforms, the Y. W. C. A. had already ordered theirs.

For months, the Y. W. C. A. workers in France have been attired in an adaptation of the French officer's blue uniform, with silver buttons and the Blue Triangle of the Y. W. C. A. on hat and sleeve.

The uniform consists of a box plaited skirt and Norfolk jacket with Kitchener pockets, both of horizon blue, and a black hat of the tri-corne design. On the right sleeve and front of hat is worn the insignia of the Y. W. C. A.

With four hundred secretaries officially appointed war workers wearing the uniform, it will soon be as familiar in this country as it already is in France.

MAKING PLEDGES FOR LIBERTY LOAN BONDS

It has been left to a non-resident who is loyal to Oregon to be the first subscriber to the Fourth Liberty Loan at the First State Bank. Mrs. Marie D. Johnson who owns a home in Los Angeles, California, but also owns a beautiful orchard tract at Bairdsdale was the first to offer her subscriptions which was done early in August.

Others are now pledging themselves to purchase bonds, each one seemingly eager to be one of the early subscribers. Numerous \$500 pledges have already been received and among them Frank Escobar comes forward with his usual \$1000 subscription. Frank is certainly showing the people how those at home can help in the fight against the Hun. He has never failed to come forward with \$1000 each Liberty Loan issue, and is one of the first to subscribe.

Every loyal citizen should turn in his pledge at once in order that the state of Oregon may be the first "over the top" which it is expected to do on the morning of Sep. 28.

The interest rate is 4 1/2 per cent, payments are to be made 10 per cent September 28, 20 per cent November 21, 20 per cent December 19, 20 per cent January 16, 30 per cent Jan. 30.

Every convenience is offered for the people to make their pledges. Banks will have representatives on the fair grounds where those desiring to pledge their subscriptions may do so and make their payments at a later date. There will be no need of any one waiting for the solicitor, in fact, the loyal citizen will beat the solicitor to it by wearing a pledge ribbon long before September 28, and before the solicitor has time to solicit him.

All third Liberty Loan Bonds are now ready for delivery and those who have not yet called at the banks for their bonds should do so at an early date so that their delivery can be reported to the government.

FISHER'S PRODUCTS ARE AT THE FAIR

This is a picture of "America's Finest Flouring Mills," situated at Seattle and owned by the Fisher Flouring Mills Co. The plant is regarded as one of the finest milling plants in the world; it has been the subject of extensive comment in the leading milling publications of the United States and Europe. The plant is one of the show places of Seattle. It is here that Fisher's Blend and other high quality flours as well as Fisher's Wheat Substitutes are prepared for the public, also Fisher's Dairy Feeds, Fisher's Calf Meal, Fisher's Poultry Feeds and Fisher's Mopork and Morfat. During the present critical time in the country's history this plant has been doing its bit to keep Europe as well as the United States with their food supply. O. D. Fisher, General Manager of the Fisher Flouring Mills Co., is recognized as one of the ablest and foremost milling men in the United States and has been of great assistance to the Food Administration in solving troublesome questions involving the grain situation, particularly as it relates to the Pacific Coast.

A federal official recently discussed the problem of how to deal with the I. W. W. after the war. One way is for idealists and ambitious politicians to cease writing books and speeches referring to the American people as economic serfs, which are liable to be taken seriously by people who suppose their authors are writing in earnest rather than merely to make an impression.

A southern statesman says that the boys from 18 to 21 ought not to be asked to fight in the army because they are not permitted to vote. Well, if that exclusion from the ballot box were a ground for exemption, even a conscription law couldn't produce much more than a corporal's guard from the states where the democratic party's brand of democracy is in full force and effect.

H. W. Snashall, president of the Farmers Mutual Fire Relief Association, reports the association has broken all former records in 1917. The annual statement shows 383 new members gained, 17 fire losses paid, aggregating \$4911; \$1,036,677 of insurance written, one assessment levied, and \$700 invested in liberty bonds during the year. The association is entering its 14th year, and has over 4000 members carrying \$4,250,000 insurance. It has made an annual saving of over 50 per cent to its members. At the annual meeting in January Andrew Brugger of Gresham was re-elected director for the ninth year. Farmers desiring to join may obtain information from H. W. Snashall, Gresham, R. A., or Herman Loeding, secretary, 409 Stock Exchange Bldg., Portland.—Adv.
