Personal Trouble Specialist.

A New Profession

TO YOU:

The great struggle for food, raiment, shelter, education and spiritual attainment—the fears, worries, sorrows, etc.—form the basis of many nervous, and all mental and physical diseases.

I am a Neuronic Mental and Psychical Specialist, and, during the past year I have prevented over 300 divorces, 175 suicides, 53 murders and 107 people from entering the asylum. As a Psychologist, Psycho-Analyst and Vocational director, I am able to correctly direct you in all personal, domestic, love and business affairs as well as to treat you for nervous, mental and psychical diseases. I also "place" misfits in their natural vocation. When you have physical diseases consult an M. D. or a Naturopath; when nervous, mental or psychical diseases possess you, consult a Psycho-Analyst, and, when any trouble annoys you, consult a personal trouble specialist.

Yours for "Heaven in every Home".

SEED CORN.

Have you selected your seed corn and put it away in a dry well ventilated place where it will dry quickly and thoroughly? This has been a good year for corn and you should not have to buy seed for the next two years. A few minutes' time now will save you several dollars in the spring and possibly you can sell several dollars worth of seed corn to your negligent neighbors.

GAS MASKS.

Save all fruit pits and nut shells. They are needed to make gas for gas masks to protect our boys 'over there.' Many of the school children are collecting, the Red Cross is gathering them up or they can be left at this office.

MISUNDERSTANDING CLEARED UP

A misunderstanding relative to the canteen work of the Y. M. C. A. has been cleared up by the War Department, which issued the following:

"Matter of prices asked by Young Men's Christian Association for its articles sold in canteens overseas already investigated by war department and condition is being remedied. The Young Men's Christian Association was originally asked by General Pershing to run the canteens for the army on a cost basis. In order to do this it had to reckon in price fixing such overhead charges as transportation charges and marine insurance so that prices were much higher than in this country.

"The Young Men's Christian Association made no profits, but lost thousands of dollars. Arrangements now made will enable them to obtain supplies from sources that will reduce overhead charges and keep prices down."

WHAT TO SEND THE BOYS FOR CHRISTMAS

What the boys in France should have most for Christmas packages is fully set out in the following from J. C. Edwards, a Red Cross manager: "Don't forget toothbrushes and paste and powder. Good toothbrushes simply cannot be bought any more in France or England. The very best they have go to pieces after using them once or twice. And don't forget the soap, both shaving and toilet soap, and last, but not least, needles and thread, large-eyed needles and good, stout khaki colored thread.

"Forget the cake, jellies and other perishable foodstuff, but fill in the three-pound package with chewing gum and hard candies, such as chocolate, that will be sure to keep.

"If there's room, a handkerchief or two is fine, a pair of wash gloves, such as chamois or wash kid, a good fountain pen or a couple of black lead pencils, some khaki-colored shoe laces and a pair of good warm thick socks are always desirable if there is room.

"Cootie killers? Well, it's all right to send them if you have room, but you should see the big hygienic plants the Red Cross has established for their extermination. Some 2500 soldiers a day go to them. The men go in one place, their clothes in another. After a thorough sterilization process, they meet each other again."

Here are the regulations in brief governing the sending of Christmas parcels.

1. Articles must not weigh more than 2 pounds 15 ounces, unwrapped.
2. They must be sized so they will go in a carton three by four by nine inches, which may be obtained next week from the Red Cross.

3. No parcel may be sent without the Christmas parcel label which the soldier must send to this country.

4. All parcels must be mailed before November 15.

Christmas parcel labels were distributed two weeks ago by the Red Cross to every American soldier across the seas, and are now on their way from the boys to America. They will not doubt be received by the home folks in a short time.

Serve your country by saving food.

EXAMPLE OF MORALE ON WESTERN FRONT

Never in the history of the world has there been so spectacular an example of the supreme importance of morale as is now being presented on the western front. The forces that confront each other are not widely dissimilar in number or equipment. Yet one army is constantly withdrawing and the other irresistibly moving forward. The difference is spelled in the single word—morale.

Now that the liberty loan is over there is just one more task for the American people—to provide the comforts of life for American boys through the United War Work campaign, which has for the purpose of raising funds, amalgamated the seven organizations doing welfare work for the soldiers and sailors—the Y. M. C. A., Y. W. C. A., K. of C., War Camp Community service, Jewish Welfare Board, American Library association and Salvation Army.

It is the service rendered by these organizations that makes for the splendid morale of the American armies. General Pershing in a recent letter commenting on the work of these agencies quoted with approval the statement of one of his colonels who said "Give me nine men who have a hut to spend their evenings in and I will have a better fighting force than ten men would be without it."

Dr. John R. Mott, director general of the United War Work campaign says, "If it is worth twenty-four bil-

lion dollars to keep our boys under arms next year surely it is worth a hundred and seventy million and more to add ten per cent to their fighting edge to bring victory ten per cent nearer. This is the appeal of the seven united war work agencies to Americans and particularly to those four million homes where service flags fly.

"Viewed as a total sum, \$170,500,000 seems gigantic, but divide it by the four million men who will be under arms in our army and navy during the period it is expected to cover and it means less than fifteen cents a day per man.

"Surely there is no father or mother or friend of a soldier in this great country who will say that fifteen cents a day is too much to spend on his church, his home, his library, his theater, and his club over there."

The state quotas in the west are as follows:
California\$4,688,750
Washington 1,278,750
Oregon 767,250
Montana 511,500
Idaho 426,250
Utah 341,000
Wyoming 16,075
Nevada 85,250

Of the men now sitting in the United States senate twenty-six have served as governors of their respective states.

Scotland's population is 15,411 greater than that of Ireland. She is also nearly twice as rich.
