

TROUTDALE

Mrs. M. J. Tiller received word today that her son A. J. Moore of Bend, Oregon, has been appointed district attorney of Deschutes county, following the resignation of H. H. Dearmond. He is to take office January 1.

A happy New Year to every one, and may we all be blessed with abundant peace and prosperity in the year of 1919.

There was no Red Cross meeting last week on account of the holidays, but sewing will be resumed as usual on Thursday, January 2d from 10 till 4. We have recently finished 20 refugee shirts and have pajamas on hand. At headquarters they urge the sewers to keep at work, as there is much sewing on hand yet to be done.

The Troutdale membership drive in the hands of Mrs. L. A. Harlow, leader, and Mrs. Ella Hensley, Mrs. Singleton, and Miss Blanche Berney for District 48, turned in \$170. Some of this was turned in since the report was given in the Outlook last week.

As Ladies' Aid day comes on New Years day it has been decided to postpone the meeting till Friday, January 3d, when Mrs. L. A. Harlow, the president will entertain the society. All ladies interested are invited to attend.

The children of the school were made happy last Tuesday by a Christmas tree, prettily decorated by the older girls and boys. An interesting program was given, then the presents were distributed, every child being remembered and they were treated besides to peanuts, apples, and candy by the teachers. A number of parents enjoyed the exercises.

Will Cummins went to Tillamook Christmas day, coming home the next day with his wife who has spent the fall with her sister there in hopes of benefiting her health.

Robert Wilson is home on a furlough from San Francisco, where he is stationed in the navy. He leaves New Years day for his post of duty.

School was resumed Monday morning in Mr. Bradley's room. The primary room will have no school this week, as Mrs. Grant has the grip. Troutdale at last got in the fashion with several cases of grip. The sick folks on the hill across the Sandy are about all well now.

POWELL VALLEY

Last Friday evening about forty members of the Swedish Lutheran church met at the home of Mr. and Mrs. Emanuel Anderson in Gresham, where a surprise party was given Mr. and Mrs. Ernest Lundbom. A program was rendered consisting of speeches made by Rev. John Truedson, S. M. Staffansen and J. Sture; violin selections by Hakan Truedson and readings by the Misses Florence Johnson and Myrtle Anderson. A present consisting of a silver set of knives, forks, teaspoons, dessert spoons, butter knife, and a sugar spoon was presented to the young couple by the Rev. J. Truedson for her many years services as organist and choir leader of the church. A very pleasant evening was spent listening to song and music, after which refreshments of coffee and cake were served.

WOMAN'S STATEMENT WILL HELP GRESHAM.

I hated cooking because whatever I ate gave me sour stomach and a bloated feeling. I drank hot water and olive oil by the gallon. Nothing helped until I tried simple buckthorn bark, glycerine, etc., as mixed in Ad-ler-i-ka. Because it flushes the ENTIRE bowel tract completely Ad-ler-i-ka relieves ANY CASE sour stomach, gas or constipation and prevents appendicitis. The INSTANT action is surprising. Gresham Drug Co.—Adv.

Extra Outlooks of the Christmas issue will be mailed at 5c each.

PLEASANT VIEW

The "flu" epidemic in this neighborhood seems to have about run its course as no new cases have developed the last couple of weeks. Most of the victims have almost recovered. Louis Mershon, who was very low with pneumonia, is able to be up some now.

School has opened again and it is to be hoped that we won't have any more enforced vacations.

Mr. and Mrs. Frank Wand and family have gone to Illinois for an extended visit with Mr. Wand's folks. Albert Seidle, who was so unfortunate as to get the accidental discharge from a shot gun through his right hand last September, has at last had to give up the two front fingers of his hand. It was lucky that his whole hand wasn't blown off.

Ernest Peterson is nursing a fractured arm as the result of an encounter with his "Lizzie" last Sunday evening.

Mrs. Serber, who has been ill for some time and unable to walk, is up and around again.

The Red Cross has opened up again here and the ladies are busy making convalescent robes for the U. S. Army Medical department. They are so nice and warm and "comfy" looking that it may be necessary to appoint a guard for them to be sure that they all get started back to the army department.

Mrs. Van Hootegem, who was ill and in the hospital for a while, is slowly recovering.

Mrs. Wahner came down recently from eastern Washington to make a visit with her daughter, Mrs. A. D. Ogden.

PLEASANT HOME

Mrs. M. Lennartz entertained the Sunshine club by a party last Friday evening at her home.

Quite a number of the "flu" cases are reported in the vicinity.

Mr. and Mrs. Geo. Carpenter and family have moved to Estacada, where Mr. Carpenter is working in the mill.

Robert Shumway, Oscar Carlson and George Staffanson have been mustered out of the service.

Mr. and Mrs. A. B. Wood entertained a number of friends on Christmas day. The day was pleasantly spent in conversation and music but the crowning feature was the delicious Christmas feast served by the hostess. The house was tastily decorated with Christmas greenery.

PLEASANT VALLEY

Rev. W. T. Ford will speak at the Pleasant Valley church next Sunday, January 5, on the subject "A Review and a Resolve," in which he will portray the other side of a man's life. All are invited to attend.

Extra Outlooks of the Christmas issue will be mailed at 5c each.

BANK NOTICE.

It is quite necessary that banks close their doors not later than 4 p. m. in order to comply with requirements of insurance companies and to complete the days work nearly all of which comes after closing. Persons making requests for entrance after 4 p. m. are subjecting themselves to loss as well as the bank besides endangering the lives of the employees of the bank.

We will after January 1st, 1919 close doors promptly at 4 p. m. You are urged to transact your banking business before that time and as early in the day after the bank is open as can be done.

FIRST STATE BANK.

BANK OF GRESHAM
Per K. A. MILLER, Cashier.

Few Escape.

There are few indeed who escape having at least one cold during the winter months and they are fortunate who have but one and get through with it quickly and without any serious consequences. Take Chamberlain's Cough Remedy and observe the directions with each bottle, and you are likely to be one of the fortunate ones. The worth and merit of this remedy has been fully proven. There are many families who have always used it for years when troubled with a cough or cold, and with the very best results.—Adv

Tailoring

For men and women—cleaning, pressing and repairing done well. Peter Lenard, Powell street.

Air Schools to Be Demobilized

Corporal Glenwood Miller, who is in the quartermaster's department of the Midway Air Service Mechanics' school, St. Paul, Minnesota, has sent his parents a clipping from a tricity paper of December 11, describing the immensity of the enterprise, which has been ordered abandoned.

The War Department last night ordered the demobilization of a greater part of the officers and men of the Air Service Mechanics' school, Midway, to begin at once.

All work of instruction will be halted this morning. The abandonment of the Overland building and component properties of the school was also ordered, dismantlement of the buildings to begin immediately.

Transfer of the remaining personnel, which will total about 375 men and ten officers, to Wilbur Wright field, Fairfield, Ohio, will begin when the demobilization is completed. These orders mark the ending of the largest and most complete aviation mechanics' training school in the world—Minneapolis' greatest war activity.

Packing of equipment and preparation for the discharge of 1,870 enlisted men and 80 officers, of the 3,400 men and 100 officers at the school, will begin this morning, and will probably be completed within six weeks.

Vacate Soon as Possible. By the time the last man has been discharged there will be nothing to indicate to the casual observer the part the school has played in the great war. All properties will be vacated as soon as possible, and returned to their pre-war condition before the closing of the government leases on March 1.

Telegrams received last night by Maj. W. R. Weaver, commandant, order the return as soon as possible to civil life of 2,870 men, and officers in proportionate number, the demobilization to be made at the Overland building. This wire, and one ordering the dismantlement of the school, confirmed wires received two weeks ago.

It is probable that the actual discharge of men will not begin until next week. Major Weaver said last night, because of the necessary strict examinations of the men, which precedes the discharge of all army men. Also, discharge papers must be prepared, and a myriad other things must be attended to.

Waiting Discharge Orders. Thirty men who left the school yesterday for Bowling Field, Wash., and 124 who were scheduled to leave today for various fields are waiting special orders of discharge. If not received they will complete their courses at the fields to which they will be transferred.

The school, since the abandonment was first hinted in an air program of the War Department on November 11, two days after the signing of the armistice, has not for a moment ceased its work, nor permitted it to slacken.

Monday and Tuesday of this week saw more work accomplished, and a greater number of students actually in training than ever before.

Wilbur Wright field is an institution of long standing, and, with Kelly field, Texas, provided the Midway school with its first students and officers when it opened. It is, however, by no means equal to the Midway school.

So complete is the equipment at the Overland building, and so far advanced are the methods of instruction, that the French government has had reprinted a form of teaching originated largely by officers of the Overland school.

Originally the only aerial instruction institutions in Minneapolis were the Aero club and Dunwoody institute. On January 1, this year, a class of 300 mechanics in training under Lieut. E. A. Hadeen, arrived at Dunwoody from Kelly field, March 1 the Midway school, then known as the Signal school, then known as the Signal Corps Aviation Mechanics' Training school, was established under Major Weaver.

World's Greatest School. From 300 students the number has steadily increased to its latest total, and the school itself has advanced rapidly from an institution established chiefly as an experiment, to the position of the world's greatest aviation mechanics' school.

Brown field, about two miles north of Camden place, was recently turned into a flying field to co-operate with the school, giving to the students a practical experience. Numbers of aviators have made flights over Minneapolis at various times from this field.

Thousands of dollars have been spent by interests in Minneapolis and St. Paul in the furthering of the work being done by the school.

KELSO

Following is a report of the work done by the Kelso Red Cross auxiliary during the year past: Fifteen comfort pillows, 12 dish towels, 36 hospital shirts, 72 pajama suits, 30 holders, 5 sweaters, 24 pairs socks, 15 serge dresses, 40 pinafores, 10 peasant shirts, 10 convalescent robes and 2 dozen pairs bed socks.

Kelso raised \$99.10 in the 1918 Christmas membership drive.

Mrs. N. M. Boyd and three children from Washburn, Missouri were guests of Mrs. Boyd's aunt, Mrs. T. Bowen during the holidays. Mrs. Boyd's husband is a soldier stationed at Vancouver. They expect to locate here permanently, having rented a house in Borng.

Leo Canning and Alfred and Pete Hauglum were spending furloughs with the home folks during the holidays.

School will be closed a week longer on account of illness of the principal, Mrs. Louise Neilson.

The Red Cross auxiliary will meet on Thursday, January 2.

SOWING OF LIME HELPS SOUR SOILS

Lime corrects the soil acidity that interferes with maximum crop production, and a circular telling how to use it to best advantage has just been issued for free distribution by the soils department of the college. Lime will sweeten the sour soils so that favorable bacteria may develop and aid in making the plant food available for the crop, according to the circular. It will also supply any lack of calcium as a plant food, and make some food materials already in the soil.

A self-closing faucet on the kitchen hot water supply will effect a great saving in heat.

LUSTED

Christmas exercises were held in the Lusted school last Tuesday. A Christmas tree, which was an attraction, was much appreciated by the children.

Quite an excitement was aroused in this neighborhood on Christmas even when all the neighbors were called out to fight fire at the home of Jack Agerman who lives on the Wm. Erz farm. The chimney was on fire and the flames were going up about five feet, which made it look as if the house were doomed. The fire went out and no damage was done.

Miss Florence Wilhelm, of Victory, visited Miss Jean Lent last Tuesday.

Mr. and Mrs. Ed. Hamilton and family enjoyed Christmas dinner with Mr. and Mrs. A. E. Whitesides, the former's sister.

Mr. and Mrs. Mathew Rauw have moved to Portland where Mr. Rauw will be employed in the commission business.

It's a good thing for all concerned that there was no league of nations to enforce the doctrine of "self-determination of peoples," the time session was undertaken in this country in the sixties.

When a man says "business is business," he is about to do or already has done something of which he is ashamed.

Agree with everybody and you may run for office, but you're not likely to run very fast.

For Croup.

"Chamberlain's Cough Remedy is splendid for croup," writes Mrs. Edward Hassett, Frankfort, N. Y. "My children have been quickly relieved of attacks of this dreadful complaint by its use." This remedy contains no opium or other narcotic, and may be given to a child as confidently as to an adult.—Adv.

CORBETT

Mr. and Mrs. W. H. Reed and son Fred spent Christmas with Mr. and Mrs. Albert Fox at their spacious new home in Westmoreland.

A crew of nine men are repairing the telephone line here.

Saturday, January 4th, is the regular monthly meeting of Columbia grange, at which time the new officers will be installed. There will also be degree work.

A happy family gathering, on Christmas at the home of Mr. and Mrs. Lewis Reed, included the following guests: Mr. and Mrs. St. Joseph Leland, Mr. and Mrs. Ernest Judd and daughters and Mrs. Chas. Slover and Mr. and Mrs. Sterns.

R. Becker has rented his hall to O. K. Patterson and Roy Anderson, and expects to spend the remainder of the winter in California.

Professor Tollefson, the exponent of "New Thought" in this community, has just completed a 40-day fast. He is reported to have come through somewhat weak physically but says he is a stronger and better man spiritually.

COTTRELL

Ernest Ball and two daughters are visiting at the home of Mr. and Mrs. G. H. Blackburn.

Miss Hazel Goger returned to Portland Sunday after spending Christmas at home.

Vern Pitts spent Sunday at home accompanied by his cousin, Rae Sutton of Parkdale. Mr. Sutton has recently received his discharge from the S. A. T. C. of Corvallis.

S. F. Pitts and family have moved onto the Arnold Ruegg farm.

Mr. and Mrs. W. E. Craswell spent Christmas day with their son, L. E. Craswell and wife.

OREGON COLLEGE AIDS S. A. T. C. MEN

Special preparatory courses will be offered, this year only, to students' army training corps men at the college, who are lacking the necessary qualifications in English, mathematics, physics, and elementary chemistry, to enter upon degree courses. All who have enough high school work to enable them to enter a degree course, as shown by their scholarship at the college, will be allowed to do so, even though a little short of the number of credits required. For those who wish to prepare for vocations special courses in agriculture, commerce, engineering, and pharmacy will be provided. In view of the unexpected end of the war and of training for it, the college is doing its utmost to provide work for those who must make their way in whole or in part.

FUEL ADMINISTRATOR GIVES FUEL ADVICE

Wood can be utilized to best advantage by burning it in combination with coal, according to the United States Fuel Administration in a booklet of information for consumers and savers of fuel sent to Fuel Administrator Fred J. Holmes. It is advisable to throw wood blocks on the fire when the fire box is comparatively empty and cover them with coal.

The fire should receive more frequent attention than when burning coal alone. The check-damper in the smoke-pipe should also be kept open wider than when burning coal alone as less chimney draft is needed if wood is used alone in a coal heater, the grate should be partly covered with sheet iron or fire brick to reduce the draft.

When in doubt try a Want Ad.

SANDY BLUFF

Mrs. Laura Barnes had as guests on Christmas day, Mr. and Mrs. M. Widner, Mr. and Mrs. Kretz and a baby, and Mrs. Ella Douglass.

Mrs. V. Hengstler has recovered from her accident and returned to her home. Her daughter Lelah is also home and is slowly improving.

Mr. and Mrs. Alonzo Radford entertained on Christmas day, her mother and father, Mr. and Mrs. Wm. Caldo, also her brother, Joe Caldo and wife.

Alfred Hauglum has received his discharge from San Pedro, California, and is at home. Peter Hauglum, with a friends from Camp Lewis, has an eight day furlough and was home in time for Christmas.

Mrs. John Barnett is quite ill from after effects of the "flu." Dr. Short was called to wait on her.

Mr. and Mrs. Ida Dukes and family spent Christmas with the latter's mother, Mrs. Lizzie Radford.

A. J. Ault spent Christmas week at home with his family. They entertained on Christmas day, Mr. and Mrs. A. J. Crose of Portland. Their daughter Zaidie returned to Portland with them spending the balance of the week.

Mr. and Mrs. Brook and family spent Christmas with their daughter, Mrs. Chandler of Troutdale.

Clarence Browning was mustered out from Camp McArthur, California, and arrived home in time for Christmas. Everett Browning, who is working in Bridal Veil, was also home for Christmas.

THE WORD OF CHEER AND HELPING SMILE

Fred Lockley, lately returned from France, is telling some of his experiences and other incidents through the columns of the Portland Journal. Here is an extract from one of his recent articles:

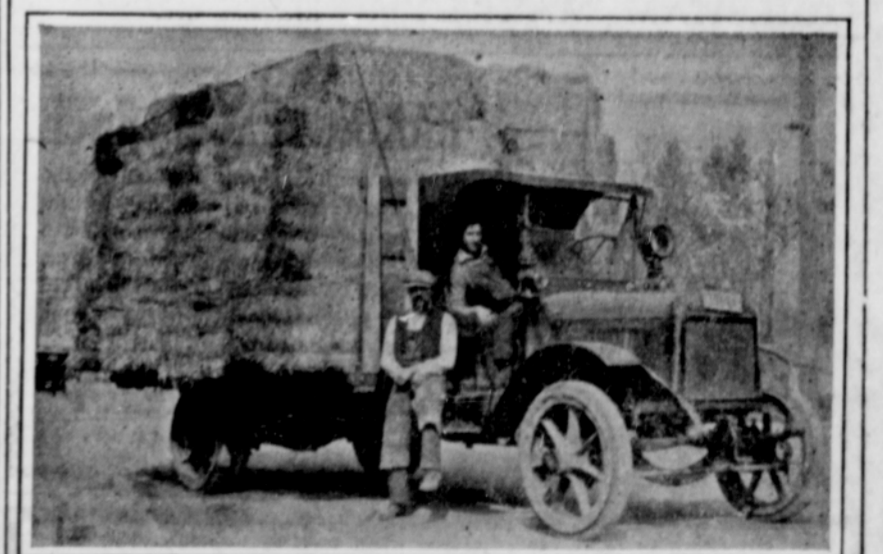

Presently the brakeman, Ray C. Wilkinson of 942 Albina avenue, Portland, sat in the conversation game. We began talking of hobbies. Mr. Wilkinson said, "My hobby is to try to see the silver lining of the clouds, no matter how gray they are, to give my fellow man a square deal and to feel that I will leave the world a little better for having lived in it." "How do you put your program across?" I asked. "Here is one way," he answered, as he handed me a printed slip. "When I see a good bit of verse I have a few hundred copies printed and hand them to folks I meet. I am a great believer in the word of cheer and the helping smile or act. Here is a bit of verse I believe in. Take it, practice it, and pass it on. It will sure work." I will pass it on at once to Journal readers. Here it is:

If you put a little lovin' into all the work you do,
And a little bit of gladness and a little bit of you,
And a little bit of sweetness, and a little bit of song,
Not a day will seem too toilsome; not a day will seem too long;
And your work will be attractive, and the world will stop to look,
And the world will see a sweetness like the twinkling of a brook,
In the finished job; and then the world will turn to look at you
With a world's appreciation of the thing you've found to do.
Just a little bit of lovin' and a little bit of song,
And some pride to sort of make it straight and true and clean and strong;
And the work that you're a-doin' pretty near before you know
Will have set the world a-talkin' and you'll see that you have done
More than you had dreamed or hoped for when the task was first begun;
And you'll find the bit of lovin' you have put into the same
Has come back to you in lovin' and come back to you in fame.

Stomach Trouble.
"Before I used Chamberlain's Tablets I doctored a great deal for stomach trouble and felt nervous and tired all the time. These tablets helped me from the first, and inside of a week's time I had improved in every way," writes Mrs. L. A. Drinkard, Jefferson City, Mo.—Adv.

FORD OWNERS

Here is what we have been looking for, a machine that will recharge your magnets and take the shorts out of your coils. We recharge your magnets without taking your motor down, thus saving the time and expense of having new magnets put in your car.

It also burns all carbon or metal shorts that sometimes give you trouble. This work is absolutely guaranteed to give more light at night and more power to the motor.

Yours for service,

RAKER & SON
