

**CHEVRONS SHOULD NOT MAKE FOR ILL FEELING**

Gresham, Oregon, Jan. 22.—Editor Outlook:—Under the above caption The Oregonian in a recent issue says: "It will be unfortunate if the wearers of gold and silver chevrons—one denoting military service overseas and the other military service at home—shall hereafter engage in any uncomradely bickerings over the relative implications of these insignia."

We do not understand why the wearing of an insignia should create a feeling of envy or jealousy in the mind of a true patriot. As we understand the appellation, "Patriot" means a person who is devoted to his or her country and its welfare and is willing and eager to go at any and all times to do whatever they may be called upon to do in defense of their country. It matters not whether this call takes them to the trenches at the battle front, at home or in a foreign land, on the high seas, as commander of a dreadnaught or as a common sailor on a transport ship, in the factory, mill, logging camp or farm, running a railroad train or driving a supply wagon, or serving in the ambulance corps or hospital service caring for the maimed and sick or whether they are sacrificing their dollars buying liberty bonds to furnish money necessary to carry the issue to a successful termination. All this work is absolutely essential to win. The man who goes into the woods to secure material for the airplane is just as necessary as the man who acts as pilot to take that plane into action after it has been built, the farmer who produces the food is just as indispensable as the man who carries the gun.

Any citizen who complies with the laws, submits to the requests, and obeys orders and instructions of his government is a true patriot.

Why should one be entitled to any more credit or glory than another?

The man who enters into a petty altercation over the relative value of service rendered, is either ignorant of the true meaning of the term patriot or an enemy to our country and the democratic principles which it represents. Envy and jealousy coupled with a vain ambition to rule the world was the cause of this greatest of all wars the cost of which in blood and tears, sorrow and suffering, money and lives reaches a grand total so great and awful in its magnitude that the mind cannot comprehend nor the human tongue command words to describe it.

If wearing an insignia is going to create a spirit of jealousy and envy let us by all means do all within our power to discourage the wearing of it.

The Oregonian concludes its editorial thus: "There is this obligation on the part of the public, not to estimate too hastily, or without full knowledge, and to remember that neither foreign service by itself nor the lack of it marks any important distinction among soldiers. We think the soldiers themselves will see the point readily enough. There is glory enough for all who have done their duty. The problems of the future so require united action to a common end that any man who want, only fosters discord ought to be regarded as a public enemy."

**FARM LABOR.**

There are many boys returning from the service and becoming available from other sources of war work that are looking for work. Many of these are experienced farm labor.

The U. S. Employment service reports a good supply of men for farm work, many married men who want farm work. In placing orders for farm labor, stop at the U. S. Employment Bureau, corner of Third and Oak streets.

**Chamberlain's Cough Remedy.**

Before using this preparation for a cough or cold you may wish to know what it has done for others. Mrs. O. Cook, Macon, Ill., writes, "I have found it gives the quickest relief of any cough remedy I have ever used." Mrs. James A. Knott, Chillicothe, Mo., says "Chamberlain's Cough Remedy cannot be beat for coughs and colds." H. J. Moore, Oval, Pa., says "I have used Chamberlain's Cough Remedy on several occasions when I was suffering with a settled cold upon the chest and it has always brought about a cure.—Adv.

**Asset or Liability?**

The library is your's—your's because it is a public institution supported by your money. Since you have it, what are you doing with it? Did you count your share in the library as an asset or a liability at stock-taking time?

We have just passed through a period of stress and upheaval. You used everything that was yours to make the world safe for democracy. Ahead of us stretches a future promising unusual problems—the markets will be unsettled; the labor situation difficult. It will be the man who makes everything count who will come out on top. The library is here to aid you in attaining success in business management, scientific farming—whatever your line may be. Make your library share an asset this year.

**HINES QUALIFIED TO BOSS THE RAILS**

Ability usually proves itself—so say friends of Walker D. Hines, new director general of railroads to fill the place vacated by Secretary McAdoo through resignation. Hines is both railroader and lawyer. He was formerly chairman of the Santa Fe before taking the place as assistant to McAdoo during the war.

The report that Champ Clark is a candidate for the presidential nomination again is confirmed. He has written a Mooney letter to the New Jersey socialists.

**ALL ZONE REGULATIONS AND PRICES SUSPENDED**

All coal prices and zone regulations on coal and coke will be suspended February 1 by the Fuel Administration, according to advices received by Fuel Administrator Fred J. Holmes, from Washington. An exception is made in the case of Pennsylvania anthracite which will remain subject to the present regulations.

The price regulations refer to prices, margins of wholesalers, commissions of agents and retail margins and prices, over which the Fuel Administration has had control for the last year.

The zoning system has been in effect since March 1918 and has resulted in the avoidance of much waste in transportation. Distribution has been prohibited beyond the limits of each zone, except through special permit issued by the Fuel Administration.

The proposed League of Nations is being supported on the ground that it will keep us out of war, but if it comes as far from fulfilling expectations as the democratic platform of 1916 the people will wish they hadn't placed too much reliance in the advance notices.
