## THIS WEEK TO ORDER REPAIRS

Mr. Farmer—  
This is repair week—  
What does that mean—  
That you should order now—  
Anything you need—  
In the way of repairs—  
So you will be prepared—  
And give the dealer time—  
To get what you want—  
If he hasn't it on hand—  
It will save you money—  
You will avoid delays—  
Your dealer can serve you—  
At less expense—  
Think of what it will mean—

A county agent says: "As spring advances farm machinery is already seen in some fields—it was left there last fall!"

If that is true of your machinery it is unfortunate. You will need to look it over for it is in poor condition and will need cleaning and repairing.

Broken and worn parts will need replacing, loose nuts tightened, rough surfaces pointed and smooth parts polished and protected.

But every farm machine should be carefully gone over now before the rush begins—any part needed or likely to be needed in a hurry when the season's work begins should be carefully noted and an order placed for it at once so it will be on hand when the emergency arises. It will surely save you many dollars worth of time and inconvenience.

If in doubt call up your local machinery man and talk it over with him.

It's up to you to make this year the most profitable you have ever had. This is one way to help you do it.

### THE CENTENARY GATHERING FORCE

The centenary movement of the Methodist church plans, through its organization to safeguard humanity in helping save the world for christian democracy.

Its sweep and purpose is so big and broad that it begins at home and reaches out to the uttermost boundaries of the earth. While its primary object is not to build up the church, yet it makes ample provision for becoming a vital factor in our community as well as to carry Christianity into every part of the earth. Naturally, of course, the church will grow in power, largeness, influence and usefulness, which is greatly to be desired, as the movement unfolds and gathers force.

The church comes forward in this after-the-world-war-period when the social life of the world seems almost ready to crumble in its perturbed and chaotic condition and offers its services in carrying the message of Jesus to the unsatisfied, the restless and the weary of all lands. He is the only foundation from which society will ever be saved. Political adjustments made by peace conferences and league of nations will never suffice unless founded on and backed up by moral and spiritual principles as promulgated by Jesus. It is the greatest religious move ever attempted. The world will herald it with glad acclaim. It is being followed by other denominations and it will sweep the world. C. M. HARRISON.
