

Going Up!

Cecil Moffett says, "Pack eggs now. In water glass, you know. The U. S. department of agriculture and O. A. C. department of animal husbandry will supply directions on request. Eggs will cost one dollar a dozen next winter; and the packers are busy buying up eggs now for cold storage. The reason for the high prices is the depletion of the flocks of laying hens. Many poultry raisers sold off their hens during the war emergency period when feed was high and the call came to eat chicken and save beef and bacon. It will take at least four years to build up the flocks to the pre-war standard."

Do You Sleep Well?

To be at his best a man must have sound, refreshing sleep. When wakeful and restless at night he is in no condition for work or business during the day. Wakefulness is often caused by indigestion and constipation, and is quickly relieved by Chamberlain's Tablets. Try a dose of these tablets and see how much better you feel with a clear head and good digestion.—Adv.

MELROSE AND VICTORY

A most delightful afternoon was spent last Saturday at the home of Mr. and Mrs. George Hayden when their little son, Harlan, entertained 15 of his young friends in honor of his seventh birthday. He was ably assisted by his sister, Miss Crystal. Games and contests were enjoyed, the most pleasing being a peanut hunt and pinning the tail to the donkey. Prizes were given the winners and each guest received a souvenir. The luncheon table was spread on the lawn, where the youngsters enjoyed the beautiful birthday cake and fruit punch. They marched to their places by music furnished by Mrs. J. T. Wood. Ladies assisting Mrs. Hayden were Mrs. G. W. Ailder, Mrs. Bush and Mrs. John Ickler. Mrs. T. J. Savage, sister of Henry L. PLEASANT HOME

OWN A FEW SHEEP.

Secretary C. B. Stewart of Utah Woolgrowers' association says that a special effort will be made to encourage farmers to raise more sheep so that every farmer will have at least a few. He says: "Not until every ranch and farm owner does this will production of livestock be sufficient to meet the demand for meat in the future. That sheep by nature of their close grazing habits can eat the weed and grasses of the farm that cattle cannot touch and thus practically maintain themselves is in favor of the 'own a few sheep campaign.'"

If I Were a Farmer.

If I were a farmer I would keep at hand a few reliable medicines for minor ailments that are not so serious as to require the attention of a physician, such as Chamberlain's Colic and Diarrhoea Remedy for bowel complaints.

Chamberlain's Cough Remedy for coughs, colds and croup.

Chamberlain's Liniment for sprains, bruises and rheumatic pains.

Chamberlain's Tablets for stomach troubles, biliousness and constipation.

By having these articles at hand it would often save the trouble of a trip to town in the busiest season or in the night, and would enable me to treat slight ailments as soon as they appear, and thereby avoid the more serious diseases that so often follow.—Adv.

Your Boy Is Home!

Are You Thankful?

The homes of France are desolate. Fathers paid for victory with blood of their own sons, and deemed the price a fair one. America has spent little in human life; but she must spend heavily in money. She must pay for the Spring campaign she planned for—those tremendous preparations that shortened the war. It is America's great good fortune that she can pay in money now, instead of men.

Your boy is home—America gave him back to you. Will you lend her your dollars? The money from the Victory Liberty Loan will pay the bills. How much will you subscribe?
