GET BACK TO FIRST PRINCIPLES

Chairman Hurley of the Shipping Board is now in favor of private ownership of government built ships. He is showing knowledge of business needs. What is more needed than anything else, in the United States, is to get back to first principles; to unscramble everything; absolutely everything. To have no government ownership at all, and the least possible government control. And to have adequate encouragement of industries. Then our country would forge ahead as no country ever did in all the history of the world.—Salem, Oregon, Statesman.

THE ACID TEST.

Ole Hanson, Seattle's fighting mayor, who gave an address under the auspices of the Portland Press club at the public auditorium, was heard by about 2000 people Friday night. Speaking on the subject of "Americanism and Bolshevism," it was a strong presentation of the necessity of Americanism for the safety of the country. It was the forerunner of a lecture tour in the east in behalf of the Victory Loan.

Mayor Hanson spoke briefly of the affairs of the Seattle strike, declaring the personal leadership was that of men who are opposed to all government. It was the leadership, and not the mass of workmen of Seattle, upon which responsibility should be placed, he declared, and the workers were the victims but deserve credit for the promptness with which they repudiated the false leaders.

Urging that it was the duty of every red blooded American to buy Victory bonds, Mayor Hanson expressed conviction that the man who refuses to finance his share of the debt of honor is to be regarded more seriously than slackers in preceding loans. "This," said the mayor "is the supreme test of citizenship. It is a debt of honor that the American people have assumed through their government and the man who refuses to do his part must have his Americanism questioned."

Mr. Hanson starts on his eastern tour immediately and will devote his time to the cause during the official campaign period.

Flying Circus.

The government's flying circus is well named, as half of Gresham can testify. Everyone who saw the acrobats in action in Portland yesterday felt well satisfied with the performance. It was more distracting than Ringling's or Barnum & Bailey's. There were more "rings" to watch. It was well worth a band.

BUY BONDS.

The success of the Victory Liberty Loan means that the people of the United States have not dropped the handles of the plow until the furrow is done.

VICTORY LOAN PAYMENTS.

Carter Glass, Secretary of the Treasury, has announced the dates upon which payments will be required on the notes of the Victory Liberty loan as follows:

- 10% with application on or before May 10.
- 10% on or before July 15.
- 20% on or before August 12.
- 20% on or before September 9.
- 20% on or before October 7.
- 20% on or before November 11, with accrued interest on deferred installments.

Payment in full can be made on May 20, the 10% required with application having been duly paid on or before May 10. Payment can also be completed on any installment date with accrued interest.

"Have a heart! pipes Herr Ebert in a minor key; and falling to put that over, he snarls a threat that Germans will, if hard pressed by the allies, turn Bolshevist. Same old short-sighted bluff. What do we care what they turn loose? We have worked out a pretty efficient secret service to call their hand. Bolshevist propagandists will have a desolate time of it in the U. S. A. Americans are not, and never will be, Bolshevists. This is not Russia.

Our government does not necessarily have to float a Victory Liberty loan. A government less decent would raise the money by taxation. The Kaiser, if he had been victorious, would be taxing you right now, and your receipts wouldn't be good for their face, five, ten, fifteen, or twenty years from now—not by a "Spurious Versenkt," not to mention that little interest coupon due every six months, either.

Security of principle, regularity of interest payment, and popularity as an investment are three recognized principles of bond investment. By this standard, does any investment in the world compare with the Victory Liberty loan?

Looks like tough sledding ahead for Postmaster General Burleson. Congress will combat the Burleson regime. His arbitrary act will be investigated by the House.

That blighter of an Easter rabbit forgot the most important egg of all—the promised permanent Easter peace. S'matter with that English league of nations?

So the Crown Prince is just a common wife-beater, after all.

Red Cross Speaker.

The members of Gresham auxiliary of the Red Cross were addressed by Mrs. MacVicar at their meeting at the library yesterday. She spoke at length of the activities of the home service department, urging that Gresham take up this line of endeavor.

The home service department has always been actively employed in assisting returned soldiers to establish themselves securely. It has rendered valuable and unostentatious aid to soldiers' families, having been especially helpful in untangling the soldiers' liberty bond and insurance difficulties.

Soldiers' Photos.

Gresham's Army of Occupation is the title of the large poster in the public library on which are being mounted photographs of Gresham men overseas. Tom Parker and his "buddy" kodaked in a French village. Raymond Clair Humason aboard ship, Fred Cecil Parker and Cecil Pulfer are there now. There will be others.

Consolidation Data.

In circulation at the public library are three copies of the manual of educational legislation. It is a consolidation outline and the guide from which such laws are drafted.

Stop reading here and turn to the want ad column.

ARMY TO GET TALKS IN THRIFT CAMPAIGN

To teach thrift through subscriptions to the Victory Loan and War Savings Stamps, three lectures on wise buying will be delivered to 1,500,000 soldiers now in the service. The talks will be made under the approval of Brigadier General Edward L. Munson, General Staff, U. S. A., and will be given under the direction of the Y. M. C. A.

OUR SOUL WILL PAY

There was very little to find fault with in the spirit which the American people showed when the war was brought home to them daily by deeds of heroism sent back from the fields of France. In those days, beneath the selfishness of commercialism, was laid bare the soul of our people. It was the same true, untarnished soul which built the country through nearly a century and a half of struggles which tested every fiber of our being as a nation.

It is this spirit and soul of our nation which makes possible the achievement by the American people of any task which they set themselves to do from the bottom of their heart. Our nation never went into anything with a more determined will than it did to defeat the abominable militarism which had been the lone star of the German people. The American people won that battle.

The government is now making an appeal to the same spirit which won that victory. The only work that remains to be done to make sure of an oversubscription to the fifth loan is to bring home to the American spirit which won the war the realization that there is another great task which it is right to be done. That is paying the bill of the war. The American people know the bill is just and will pay it.

A dollar saved is a dollar made. Invest in War Savings Stamps.

W. S. S. means same saving. Get the habit.
