St. Clair Family Picnic.

Mr. and Mrs. H. L. St. Clair and family enjoyed a picnic up the Sandy river on Sunday. In the Carlson's Dodge car, piloted by Chase St. Clair, they motored over the bluff road to Sandy, making a side trip down to Bull Run Lake picnic grounds. On the way home they stopped at the W. L. Crissey gladiolus farm, perched high upon a mesa over the point where the Bull Run and Sandy rivers meet. The view from this point is one of the finest in the northwest. There were scores of callers at the Gladiolus farm, many stopping to purchase the bulbs for which the farm is famous, and others accepting Mr. Crissey's invitation to enjoy the sight of the converging of the two streams below his property.

C. R. Miller's Return.

Mr. and Mrs. C. R. Miller and their small daughter have returned to their bungalow on the Section Line road, after spending the winter in Portland. They have sold their home in the city, and there is a possibility of their remaining permanently in Gresham. They would be very welcome additions to our social life, having made many friends during their summers spent in the grove up near the Beaver State motor factory, where they own a fine building site of twenty acres.

H. G. Mullenhoff is the purchaser of a new style, four cylinder, electric lighted, self-starting Moline tractor. He assures the agent, Will Hessel, that it has lots of power, and invites any doubting Thomases to come out and see it in action.

Walter Brown took in the junior games and May day exercises at Willamette University last week. Harold Lyman, who is a student at Willamette University, piloted Walter through the mazes of the celebration.

A happy family were the Merrills on Thursday. Sergeant Lee Merrill came in on the morning train from service abroad. The family was there to meet him, and welcome him home. A family party was held here in the evening at the home of his mother, Mrs. C. Merrill, which did not break up until 1 o'clock, when the soldier was obliged to leave for Portland to report at the train.

Mrs. S. R. Kitzmiller is confined to her bed with sickness.

Ed. Baumann has purchased the E. Davidson place, a five-acre tract off Powell street and Cleveland avenue, where he will open a dairy. His plan is to be ready for deliveries to any place in town and vicinity by the first of next month. Gresham has been in need of good dairy for some time, so it comes as good news.

An urgent appeal has been sent out from the Portland Red Cross Chapter to its auxiliaries, asking that knitting and refugee sewing be speeded up. The need of five million people for winter clothing must be met. The entire Portland district was far behind its quota. Knitting materials are on hand. Just ask for some yarn.

A subscriber is moved to remark on the fact that few autoists on South Roberts avenue are inclined to stop and give a body a lift. Recently a five-year-old lad tramped all the way from Schiller station to the Bull Run depot neighborhood carrying a three-quart pail of milk. "Bout forty-seven" cars passed him by without stopping.

J. C. Jones, organizer for the Woodmen of the World, is here assisting the Women of Woodcraft to rejuvenate their order. Several prominent Gresham women are members.

FORMER GRESHAM MAN DIED OF TUBERCULOSIS

A letter received today from Mrs. Chas. Johnson, who is visiting in Minot, North Dakota, brings the sad news of the recent death of Dee Welty, a former resident and property owner of Gresham. He built the house now owned by Dr. Botkin but went east about three years ago.

Mr. Welty suffered a severe attack of influenza last November, after which tuberculosis developed. He is survived by his wife and three small children. He was 37 years of age. He will be remembered by those who knew him here as a man of sterling qualities, kind to his family and true to his friends.

All Men to Have Jobs.

Every man who wants work will have it by June 1st, announces J. W. Brewer, federal and O. A. C. farm help specialist for Oregon. When haying time comes more men will be wanted than can be found, unless conditions change. Big road programs are taking up large numbers of the present small surplus of laborers.

QUEEN CONTEST TERMS ANNOUNCED

The committee in charge of the contest for queen of the Fourth of July celebration makes announcement of the terms of the race.

Votes will cost a penny apiece. This low figure is named that everybody may vote. A bonus of fifty dollars will be awarded to the winner, that she may array herself in coronation robes befitting the occasion.

No one has named a candidate as yet. It is understood that announcements will be forthcoming very soon, however. It is known that several lodges have taken up the matter and will launch campaigns for their candidates within a week. The Odd Fellows discussed the matter at their regular meeting last night, and will soon have a definite announcement to make.

Field Artillery Handed O. A. C.

The United States war department has authorized a field artillery unit at the Oregon Agricultural College. It will supply models of field guns used by America and associates in the great war, machine guns, Browning automatic rifles, tractors, nearly 100 mules and horses, and stores of engineering equipment that will also be used for general instruction, totalling about \$300,000 in value. The unit will be in charge of four commissioned and twenty-five non-commissioned officers, and train students from many states.

Pages Invite Friends.

A number of Gresham people were guests of Mr. and Mrs. George Page at their home in Portland Wednesday evening. Cards and music provided the evening's pleasure. E. Todd, Dr. and Mrs. W. J. Ott, Miss Lola Stinson and Miss Constance Page.

A short program will be rendered.

Some Fish Story.

Miss Ruth Montague, Gresham librarian has written a collection of children's stories, the doings of two little Oregon cousins. She plans to publish them in primer form, and to try them on school children. She took them up to Miss Hughes' second grade pupils for approval recently. The youngsters found them highly entertaining reading.

The crawfish story needed revising, so Miss Montague called for suggestions from her small friends. Some weird fish stories were forthcoming. One lad described a crawfish as "fish with a hard back like a crab and as large as an alligator!"

Stamp for Gerard Gleason.

Gerard Gleason, one of the Gresham grade school team of four-minute speakers is to receive a war savings stamp from his schoolmates in recognition of the splendid speech he prepared for the contest. His speech was rated second only to that of William McAllister and so the boys and girls decided to make up the price of the stamp by popular subscription.

Cause of Headache.

By knowing the cause, a disease may often be avoided. This is particularly true of headache. The most common cause of headache is a disordered stomach or constipation, which may be corrected by taking a few doses of Chamberlain's Tablets. Try it. Many others have obtained permanent relief by taking these Tablets. They are easy to take and mild and gentle in effect.—Adv.
