POWELL VALLEY

The Powell Valley Parent-Teachers' association will meet Wednesday, May 28, instead of Friday, May 29 to consider plans for Memorial Day.

Not long ago a good-sized Sunday school, in going over its records, found that not in its entire history had it sent out a minister, a missionary or a religious worker of any sort. What would you think of a community in our own country from which not a single boy had gone into the army? Such a community would be immediately put into the "slacker" class. I wonder if there are any slacker Sunday-schools.

Do You Enjoy Life?

A man in good physical condition is almost certain to enjoy life, while the bilious and dyspeptic are despondent, do not enjoy their meals and feel miserable a good share of the time. This ill feeling is nearly always unnecessary. A few doses of Chamberlain's Tablets to tone up the stomach, improve the digestion and regulate the bowels is all that is needed. Try it.—Adv.

BORING

Plans and preparations are now well under way at Boring school for the end-of-the-term entertainment, which will be held in the Boring hall on the evening of May 28th. May 29th is the closing day for the school.

The spelling and arithmetic contests which were held on May 1, brought a large crowd of delegates to Boring from Cottrell, Kelso, Deep Creek, Barton and the North Logan district. Only those who had made an average of 98 per cent in four contests during the term were permitted to participate in the annual spelling contest. Those who made 100 per cent in the big contest each won a championship diploma. Those in the Boring school who received such diplomas were as follows: from the upper grade room, Effie Daley, Lester Boring, Oliver Peterson, Frances Johnson, Frances Horberg, Ben Musa and William McCauslin. From the intermediate room, Adele Marx, Katherine Anderegg, Catherine Lang, Walter Marx and Melville Richey. Lucile Fryckstrom, Evelyn Ledine and Alean Daley missed the championship by only one word each.

The eighth graders are greatly relieved, now that the exams are over. They are anxiously awaiting to hear the results of their work.

Don Fisher, a Boring boy who has been in France, returned last week. "Uncle" Morgan was in town this week-end, but left again during Monday morning. We're sorry he isn't here more, aren't we girls?

Mrs. Birchinger has sold her one and a half acre tract to Alex Halliday. She intends to move to Lents where she plans to make her home. Mr. Halliday expects to go more extensively into poultry raising.

Mrs. Jennie LaDue's Last Hours.

The following account of the last days of Mrs. Jennie La Due, late of Greenville, Illinois, is taken from a letter written by her husband to the Free Methodist, and is reproduced here by request of relatives, for the benefit of those who knew and loved her in the long ago. Mrs. La Due was the daughter of W. G. Cathey and the sister of D. M. Cathey and Mrs. S. C. Jones of this place.

She left home in response to a third and mandatory telegram from the Emergency Hospital in Aberdeen, South Dakota, where our daughter, Eunice, was very low, having been in attendance at the State Normal school. The daughter had been taken with influenza while doing nurse's work for the city during a temporary closing of the school. Her mother found her extremely sick with double pneumonia and kidney complications, and deaf and most of the time delirious, but her mother was able to help her into a clear consciousness of renewed favor with God.

In about three days the daughter was considered dying, when Mrs. La Due collapsed and was removed to another part of the hospital. She developed some symptoms of influenza, but in a light form, and her case was not considered serious. A minister who visited her a day or two before the end, reported a pleasant conversation with her, and said he had no idea that she would die nor did he think she expected to. The Dean of Women at the school said she seemed doing well at her last visit with her, but that a change for the worse came in the night, and the next morning the Dean was shocked to hear of her death.

Her last word to me was a card saying Eunice was not so well again, and stating that the doctor had just informed her that one of her own lungs was some affected and she would have to put up a good fight. I feared the worst, and went at once to telegraph her people in Oregon, when the operator informed me, just as the premature peace news of November 7th was going over the wire, that a messenger had just gone to my house with a telegram announcing her death.

Some of the doctors said the daughter afterwards heard, that probably her heart gave way. She told a neighbor here just before starting that she feared she would not return alive, although her last words to me at the depot were, "Of course I shall come back, and live for several years, until the children are older."

I know virtually nothing further, except the following from President Johnson of the State Normal:
 "When Mrs. La Due wrote me a short time prior to her coming she seemed to have some premonition of the possibility of her being 'shipped home.'"

Mrs. LaDue was completely resigned and expressed a desire to die. As she grew weaker toward the last the doctor and nurse wanted to apply restoratives but she refused them. A few minutes before she died she wrote something on a piece of paper (Only the words can be made out, "Good-by, God (will) not forget you"). Her last words were, "Mother, I am coming." She seemed fully conscious, perfectly resigned, and supremely confident. Such a scene ought to be sufficient to convert the most obturate and hardened and to convince them of the realities of the Christian faith.

The daughter was brought to St. Louis on December 21. She is at home sick with tuberculosis of the throat and head, and cheerfully hoping for a near departure to her mother.

Cause of Headache.
 By knowing the cause, a disease may often be avoided. This is particularly true of headache. The most common cause of headache is a disordered stomach or constipation, which may be corrected by taking a few doses of Chamberlain's Tablets. Try it. Many others have obtained permanent relief by taking these Tablets. They are easy to take and mild and gentle in effect.—Adv.

The Methodist church needs several thousand new workers within the next few years, and the needs will increase rather than diminish as the years progress. Would it not be fine if some of you who sit within the hearing of my voice should be so stirred by the appeal of the world's needs that you will say, "Here am I, I will work, I will study, I will prepare myself, and I will spend and be spent until people everywhere have a fair chance at the good things of life."
