

Cure for Dysentery.
 "While I was in Ashland, Kansas, a gentleman overheard me speaking of Chamberlain's Colic and Diarrhoea Remedy," writes William Whitelaw, of Des Moines, Iowa. "He told me in detail of what it had done for his family, but more especially his daughter who was lying at the point of death with a violent attack of dysentery, and had been given up by the family physician. Some of his neighbors advised him to give Chamberlain's Colic and Diarrhoea Remedy, which he did, and fully believes that by doing so saved the life of his child. He stated that he had also used this remedy himself with equally gratifying results."—Adv.

Thinning of Apples Neglected.
 On account of early cherries and berries requiring the time of the fruit grower the thinning of apples has been badly neglected. Conditions being favorable for apples this year large quantities of fruit has set. The neglect of thinning will not be noticed until in July and August when undeveloped, shriveled apples will appear on account of lack of moisture caused by over production. Those who failed to thin will very likely have small inferior quality.

The Joy of Living.
 To enjoy life we must have good health. No one can reasonably hope to get much real pleasure out of life when his bowels are clogged with a good share of the time and the poisons that should be expelled are absorbed into the system, producing headache and indigestion. A few doses of Chamberlain's Tablets will move the bowels, strengthen the digestion and give you a chance to realize the real joy of living. Try it.—Adv.

Unselfish Interest in Government.
 Let us have the patriotism of Abraham Lincoln and Theodore Roosevelt—not a patriotism which moves us only when an enemy is at our gates, but a patriotism which moves us every day to realize what we owe to the country in which we live, which moves us to discharge that debt by aiding in every way we can to make and keep conditions right in this country.

We believe that the hand of God has guided the making of this nation. I have long been convinced that sometime in the mind of the Almighty it was conceived that heroic spirit which could vision and execute a government establishment based on universal freedom and the rights of the individual should succeed; that it should grow; that it should save itself against heavy odds, then grow again, and then go on and save the world. More and more I am convinced that the holy truths and purposes that brought together Continental congress are now fully functioning, that the mission of this country in God's scheme of things is being accomplished, and that we have been the instrument under His guidance to go into that unprecedented conflict and save the future of mankind. This we have done. Of all times when the heart of an American must burn with pride, it is now, and of all times in our country's history when the sense of responsibility for the preservation of our institutions and the welfare of our people must weigh upon thinking citizens, it is at this moment. The problems which are ahead are immeasurable in their complexity and magnitude. The forces of evil work continually and neglect is as wrong as wilful evil. It should be possible, and it will be possible, with the stimulated interest in affairs governmental to make the proper readjustment in this country; but this will only be so if there is the same unselfish interest in the country's welfare that functioned so splendidly in the stress of war itself. If men and women should now, on the theory that their obligations are discharged, turn solely to selfish pursuits in a mad scramble to make up for believed lost time or to go back to the old order, they have failed absolutely to profit by the most valuable lesson of the war.—Will H. Hays.

How to cut down rents, prices and profits and keep up efficiency and wages is the problem.

VALUE OF CREDIT

A Checking Account is the first step toward establishing credit with a bank.

And credit today is a real asset. Yet it is what you make it.

The right credit at the right time, may be worth more to you than a batch of letters presented by you as a stranger.

We seek growing accounts of growing business men—men who will come to us for advice, and who will want friendship of a strong bank when credit is needed.

This bank will be glad to meet you and serve you. It is a pleasure, as well as good business, to have young men grow with us.

Protect Fruit Spurs.

Inasmuch as young and inexperienced pickers will be used in harvesting fruit crops of all kinds this year, great precaution should be used in avoiding the destruction of what would be bearing fruit spurs for the following year. Many young fruit spurs are broken off each year by allowing children to climb among the branches.

A Bilious Attack.

When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take three of Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter.—Adv.

Apple Boxes and Ladders.

Do not wait until picking time before securing boxes and ladders. "Now is the time." One cannot handle the crop successfully unless properly equipped.

When making meringue-topped pies add one-half teaspoon cold water to the meringue just before putting on pies. This prevents meringue sticking to the knife when cutting.

Mrs. Burns' Letter.

Here is a letter that is certain to prove of interest to people in this vicinity, as cases of this sort occur in almost every neighborhood, and people should know what to do in like circumstances:

Savannah, Mo., Oct. 12, 1916.
 "I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux (dysentery). I had another attack of the same complaint some three or four years ago and a few doses of this remedy cured me. I have recommended Chamberlain's Colic and Diarrhoea Remedy to dozens of people since I first used it."—Adv.
