### AUTOMOBILE HAS HABIT OF RUNNING AWAY

The running away of A. Meyers' Ford Sedan has become habitual.

It has always been of a restless nature but of late it has become quite determined in its effort to get away.

Soon after it was purchased, while its owner was unloading some groceries at the house, it made a dash for the garage, and while it succeeded in keeping the road for more than ten rods it was unable to make the right angle turn into the garage and went straight ahead, ascending a large pile of rails near a deep ravine. With its front wheels hanging over one side of the rail pile and the rear wheels on the other side it waited for its owner to get it down. It required the assistance of three men to get it off the rail pile.

In California last winter, one night while in Venice it decided to go home without its owner but lost its way and started up one of the exceedingly narrow streets of that city, towards Monte Christo. Unable to dodge all the pedestrians, it finally became bewildered and lodged itself crosswise in one of the narrow streets, stopping all traffic until removed by an officer.

Last Tuesday night it was more successful in its get-away. Myers carefully hitched the auto at the curb near the Masonic hall, but about 12:01 A. M. while the aforesaid owner was intensely interested in a demonstration by a Spiritualistic Medium, the auto decided it was time to move and move it did. None of the Masonic brethren nor the Medium were able to trace the car so the company insuring the Sedan was notified.

Thursday, Sheriff Johnson of Hood River telephoned Meyers that Ford Sedan license No. 22999 had succeeded in climbing Mt. Hood but was again lodged crosswise in the road and was stopping all traffic. Myers' advice is to carry insurance.
