**I'm After the Storekeepers!**

Mostly my business is with the farmers. But this week I'm after every storekeeper in this county. I want one dollar from every one of them—for a year's subscription for

**The COUNTRY GENTLEMAN**

Why? Because in the very first issue that you'll get, if you hustle your dollar right over to me, there is the beginning of a series of articles called Big Country Merchants.

There will be ten of these articles, telling how ten men in ten towns succeeded in making themselves known as the biggest country merchants. There's no secret of their success that isn't open to every storekeeper in this country. Don't you want to get into their class? Don't you want increased farmers' business?

Of course, this article is only part of all the help in the September 13th issue—there are a lot of other articles and stories about farmers and farming for storekeepers and for farmers and farm women, for gardeners and orchardists and poultrymen. And yet 52 big vital issues cost only one dollar, about two cents apiece! Why "hold out"?

**WHY THE ELECTRIC CLEANER?**

There is really no comparison between the ease and thoroughness with which an Electric Cleaner removed dirt and the difficulty of sweeping.

True, one CAN clean rugs and carpets without an electric cleaner. A broom or carpet sweeper will brush up SOME of the dirt; and if you like the exercise and have plenty of time and strength a broom and a carpet beater will do the work after a fashion.

In the same way one can wash without soap. Water alone will remove some dirt if applied with enough "elbow grease."

But people use soap because it cleans more easily and better than water alone.

For the same reason people use Electric Cleaners because they clean more easily and far better than other methods.
