—realized
HONESTLY — haven't you always wanted a sweeper that "cleaned deep" and yet required no "connections", "plugs" or other time-consuming annoyances?

It's here now—and it's surprisingly low in price

is not an electric yet it gives you a strong suction to lift up dust, grit, and ravellings, which are loosened and swept up by the revolving bristle brush. Like most good things, it is amazingly simple and so free from complication and bulky "machinery" that a child can operate it.

MISS ETHEL CALKINS IS A REAL LEADER

County Industrial Club Leader is a big title for one small woman to have and one which carries with a vast amount of responsibility and hard work. In Miss Ethel Calkins the honor and the responsibility have not been misplaced. She is one of the outstanding workers at the county fair and because of her indefatigable efforts her department is one of the most successful at the fair. She is a real heroine who has not hesitated at any amount of hard work for the success of the industrial clubs.

Miss Calkins was appointed county industrial club leader a year ago and commenced at once to organize and plan the work. She had to begin at the beginning and what she has accomplished has been little short of marvelous. She has organized clubs for boys and girls in all of the schools of the county outside of Portland, has visited the schools and the club projects numberless times. She commenced in the year to plan for an industrial club building at the fair and inspired the teachers, the parents and children of the county to raise the money for the purpose. Too much praise cannot be given her for what she has accomplished. With all praise to the other very excellent departments, there is one honor they can not share, the industrial club exhibit was the only one ready on time. J. A. Churchill, state superintendent of schools said that the children's industrial club work shown at Gresham is the best county exhibit he has ever seen.

One thousand people were turned away at the depot in Portland who wanted to come to the fair last Monday.

Sixteen carloads of stuff will go from Gresham to other fairs.

The baby show comes of tomorrow at the fair.

Good for Biliousness.
 "Two years ago I suffered from frequent attacks of stomach trouble and biliousness. Seeing Chamberlain's Tablets advertised I concluded to try them. I improved rapidly."—Adv.

The Gresham volunteer fire department responded today to a call from the Lone Oak farm a mile east of town, to prevent the spread of a fire which had destroyed a small house occupied by L. Crumb and family. A part of the furniture was saved but that in the upper part of the house was burned, as was also the woodshed. The house was the property of Mrs. H. E. Reynolds and carried no insurance.

Dr. Alzamon Ira Lucas, of Portland, visited the fair yesterday and took occasion to call at the Outlook office.

For a Weak Stomach.

The great relief afforded by Chamberlain's Tablets in a multitude of cases has fully proven the great value of this preparation for a weak stomach and impaired digestion. In many cases this relief has become permanent and the sufferers have been completely restored to health.—Adv.

 THE UNIVERSAL CAR
 The Ford truck is just another arm and hand to the business man, adding through its manifold usefulness to the possible volume of his business, and at the same time doubling the value of every hour. In so many ways its all round utility serves the urgent demands of business—big and little—the retailer and wholesaler, the manufacturer and consumer, the contractor and farmer. Everywhere where business exists there is a present want for Ford trucks. Consider the price \$550, without body, f. o. b. Detroit. Let's talk it over with you.
