Can Now Eat and Sleep in Comfort.
If troubled with indigestion or sleeplessness you should read what Miss Agnes Turner, Chicago, Illinois, has to say: "Overwork, irregular meals and carelessness regarding the ordinary rules of health, gradually undermined it until last fall I became a wreck of my former self. I suffered from continual headache, was unable to digest my food, which seemed to lay as a dead weight on my stomach. I was very constipated and my complexion became dark, yellow and muddy as I felt. Sleeplessness was added to my misery, and I would awake as tired as when I went to sleep. I heard of Chamberlain's Tablets and found such relief after taking them that I kept up the treatment for nearly two months. They cleansed my stomach, invigorated my system, and since that time I can eat and sleep in comfort. I am today entirely well."—Adv.

Titanic Wheat Not Desirable.

Titanic, Egyptian or Alaska wheat is a tall spreading headed variety that looks like a gold mine but carries the seeds of disappointment. Some farmers are of the opinion that they bought this seed from the college, but that is not the case, points out George W. Kable, county agent of Benton county.

Several years ago two sophomore students at O. A. C. located some Titanic wheat in Washington. Thinking they had made a great discovery they contracted the entire lot and sold about 50 pounds in Benton county at \$1 per pound. The wheat was later tried out and found to be unsatisfactory and the boys lost about \$500 on the deal. The college discourages use of this wheat because it is of a poor, soft undesirable quality, because it often does not fill, and also because other varieties, especially white winter wheat, are much better.
