In the center of the room stood the chapter's handsome American flag on its good stout stand.

The social committee, Mrs. Max Schneider, O. J. Brown and Mrs. E. Carlson, had provided chicken by the score, snowy mountains of mashed potatoes, great bowls of hot squash, pickles of every variety, pies of untold species, and beautiful Oregon fruit, direct from a mill, and piping hot coffee.

UNION HIGH SCHOOL PLAYS FIRST GAME

The first game of the season between Union High school and the High School of Commerce is all over but the shouting and the score, which stands exactly 0 to the same. Although this was the first game of the season the team showed up to a very good advantage supplying what they lacked in practice by "vim, vigor and vitality". The play during the first three quarters was pushed by Commerce into the local warriors territory but the line held their attack whenever a goal was threatened. The team was also handicapped by the absence of Captain Skirvin who went in during the last quarter in spite of a bad shoulder.

Most of the visitors' substantial gains were made by employing fakes and tricky shifts. In the last quarter a fake pass by Commerce placed the ball on the three yard line. Three successive attempts for a touchdown netted them the same reception that a rubber ball would get from the great wall of China. Peak punted out of danger and a few minutes later started things popping when he intercepted a pass and carried it to the 20-yard line. With three minutes to play, the ball was carried by repeated line smashes to the four-yard line when the whistle brought an untimely end to the game. The stars for Union High were Peak, Jones and Johnson; for Commerce, Fehse and Paulback.

The lineups:
Gresham Commerce
Bruger l e r Keppinger
Wright l t r Stingham
Satterstrom l g r Pullan
Goger c Bastian
Welling r g l Van Buren
Gran r l Johnson (c)
Camp r e l Smith
Johnson q Paulback
Taylor h r Fehse
Jones f Munger
Peak f h l Grider
Substitutes—Gresham: Skirvin for Wright, Strong for Satterstrom, Brown for Welling, Miller for Goger, Commerce: Deering for Paulback, Paulback for Grider. Officials—Referee, "Peanuts" Pander; umpire Winters; headlinesman, Pritchard.
Next Friday the local team goes to Camas, Washington.

SCHOOL OBSERVES COLUMBUS DAY

Every Monday morning at ten o'clock, the grade school has its weekly assembly at which time something pleasant, entertaining and instructive is given in a brief program.

October 12, Columbus day, came on Sunday this year, but it was properly observed by the grades yesterday morning.

Principal Skirvin told the story of the discovery of the New World and the factors leading up to that epoch making event.

One might think the story too well-known to be interesting, but Mr. Skirvin's colorful details and incidents of the life of those times made the account as thrilling as a new romance. Joaquim Miller's poem on Columbus with its frequent reiteration of "Sail on" was a fitting conclusion to the story and as significant today as it was in the stormy month of October, 1492.

Miss Arthur's sixth graders furnished the laughs for the assembly. In some sleight of hand manner they made the audience believe that they were balancing on their heads, feet waving toward the ceiling and the next moment these little fakirs assumed a normal pose as cleverly as you please—their song never once abating.

The exercises closed with the singing of "America."

BUSINESS MEN DISCUSS HOUSING PROBLEM

The housing problem in Gresham was discussed from every possible angle at the meeting held in Masonic hall last night under auspices of the business men's organization.

There were about 30 present when the gathering was called to order by temporary chairman K. A. Miller, P. A. Combs, president and manager of the Beaver State Motor company, who seems to be most seriously affected by the scarcity of houses, was the principal speaker. He told of his problems and suggested possible ways of handling the proposition.

Others took part in the discussion, expressing various views and offering any assistance possible in solving the problem. Opinion seemed to concentrate on the formation of a company to finance the building of suitable dwelling houses which could be sold on easy terms to responsible parties. It was not thought feasible to finance the building of houses for rent.

Jas. Elkington, D. E. Towle and C. G. Schneider were appointed on a committee to make careful investigation of some matters vital to the subject and report at a meeting to be held next Monday night. They are to investigate the methods of organization of building societies, the obtaining of property, and the possibility of interesting contractors or home building companies.

The impression gained from the coming awakened on the subject and efforts would speedily concentrate on a feasible plan of action and meet the need in part at least. The report of the committee will be awaited with much interest.

At the close of the meeting refreshments of sandwiches, coffee and doughnuts were served by the business men.

There are in the territory referred to about 100 members of Multnomah Camp, which is the big east Portland Camp and has the distinction of being the biggest Woodman Camp in the world.

INTERESTING LECTURE ON PROHIBITION

Dr. Ira Landrith's lecture last evening at the Methodist church was just what it was advertised—a rare treat.

For once it can be said without offense that the subject was dry. Dr. Landrith who has helped to make this country dry is now enlisted to make the whole world so.

The lecturer knows the art of public speaking. His funny stories, keen wit, poignant sarcasm all blended into a humorously entertaining and yet very instructive and convincing address on world prohibition.

The third grade pupils won in the flag contest against all the other grades. They had done their work well for they brought out the largest number of adults to the lecture. There was only two members of the third grade present, Edith Soderquist and her teacher Miss Michel who accepted the flag in behalf of the third graders in whose room it is now displayed.

A wedding supper, in which members of the immediate family joined, was served on the same evening at the J. C. Duke home. A neighborhood reception was given at the J. C. Duke home on Saturday evening, in honor of Mr. and Mrs. Curtis Wheeler and also as a farewell party for Mr. and Mrs. Duke who will go in a few days to Sandy to make their home. About sixty persons were present.

Mr. and Mrs. Theodore Mercer, former residents of this community who moved a few years ago to the middle west, have returned with their family and expect to make their home here. They came with their three sons by automobile. They have gone to the Hood River orchards to help harvest the apple crop. They were callers on Sunday at the A. B. Conrad home.
