CORBETT MAN SUED FOR NON-SUPPORT

A recent issue of the Oregonian has the following, under a Roseburg date line, concerning a young man of Corbett formerly of Gresham:

Donald G. Littlepage, giving his address as Portland, was taken off a southbound train last night on telegraphic information from Multnomah county officers and held for investigation.

According to advices from Portland received here by the sheriff's office, Littlepage is alleged to have eloped with Mrs. Dorris L. Evans, but she was not with him when the arrest was made.

It was also stated that the couple probably would present a marriage certificate giving the names of Mr. and Mrs. A. Christensen, but the document was not in evidence. The only thing of an incriminative nature found upon Littlepage was a deputy sheriff's star.

Littlepage was arrested on a warrant charging him with non-support.

GOVERNORS ASKED TO AID U. S.

State Executives To Make Christmas Gift Savings Appeal.

Governors of all the states in the Twelfth Federal Reserve District have been asked by the Federal Government to appeal to the citizens of their respective states to give United States securities, such as War Savings Stamps and Treasury Savings Certificates as Christmas presents this year. Governor John U. Calkins of the San Francisco Federal Reserve Bank has also asked the mayors of the larger cities of the Twelfth Federal Reserve District to issue similar proclamations.

In its War Savings Christmas campaign the Government hopes to kill three birds with one stone:

First: To start the habit of saving among as many individuals as possible.

Second: By cutting down the demand for luxuries, under which Christmas presents may be classed as a rule, to reduce prices, and

Third: To raise the Twelfth District's War Savings quota for 1919, subscriptions to which are far behind the figure set last January.

Not only has the Government appealed to governors and mayors, but similar appeals have gone to all banks in the district and to clergymen of all denominations. Owing to the general unrest, of which the Government feels high prices is one of the causes, the appeal is being made on the thesis that thrift is a mark of sound American citizenship.

"Economists are agreed that the present exorbitant level of prices which constitute not only an economic but a social menace is caused to a great extent by a 'spending spree' being indulged in by the people," Governor Calkins wrote. "Indulgence in luxuries, which, of course, causes increases in the necessities of life, has raised prices generally to such unheard of heights that Christmas buying this year promises a dangerous climax. We, therefore, appeal to you to call upon the people of your State to forego the giving of the usual Christmas gifts this year and instead give securities of the United States Government, such as Thrift and War Savings Stamps, Treasury Savings Certificates and Liberty Bonds. There could be no more timely effort at stabilization of prices and production than such action upon your part and the part of the people, a majority of whom, I am sure, would answer your call."

A census of the country's manufacturers was made for the first time in 1810. Under the present law a manufacturers census is to be taken in connection with the Fourteenth Decennial census and every two years thereafter.
