"RED TRIANGLE LEAGUE" ORGANIZED BY Y. M. C. A.

Plans for a permanent organization of the men and women who served as Y. M. C. A. war workers, have just been received by F. A. McCarl, executive secretary of the National War Work Council for the Western Division, who has been appointed by National Chairman William Sloane as a member of the committee authorized at the Detroit convention to effect such an organization. It will be known as the "Red Triangle League" and all men and women Y. M. C. A. war workers who served either overseas or in home camp work, about 18,000 all told, are eligible to membership. Where there are a sufficient number of members in a community, Red Triangle clubs will be formed. Provision is also made for annual State meetings in connection with the state conventions of the Y. M. C. A. and for triennial national meetings during the international conventions of the association. The purpose of the league is stated to be "to perpetuate among the Y. M. C. A. war workers the fine fellowship and spirit of unselfish service so manifest in war times." A large percentage of the war workers were business or professional men and women, not regularly connected with Y. M. C. A. work and it is expected that through this organization they can continue to render important service.

GRESHAM SOCIAL CIRCLE ARRIVES WITH NEW YEAR

Judge Stapleton's home was the scene of a jolly New Year's party on Wednesday evening when he and Mrs. Stapleton entertained a party of friends. Those present besides the host and hostess were Mr. and Mrs. Arthur Dowsett, Mr. and Mrs. Will Hessel, Mr. and Mrs. John Cannon, Mr. and Mrs. Herbert Eling, Mr. and Mrs. Jas. Elkington, Mr. and Mrs. Benj. Cameron, Mr. and Mrs. O. A. Eastman and Mr. and Mrs. Joseph A. Haley. The evening was spent in cards.

The evening proved so unusually entertaining that the idea of a club to provide for such affairs was discussed and before the party broke up in the early hours of the new year, a club had been organized which will be known as the Gresham Social club, those present being the charter members. A set of by-laws were drawn up and Herbert Eling was elected president and Mrs. John Cannon, secretary. The membership list will be held open for some time so that others may join if they so desire.

FURNITURE WILL NOT BE CHEAPER IN 1920

Due to the great amount of home building now going on, which will continue for three years at least, the demand for furniture is four times greater than the supply. At the Grand Rapids, Chicago and Jamestown furniture markets, dealers were glad to place orders for one-fourth of their actual requirements.

This is a condition that prevails all over the country. A great deal of furniture is manufactured on the Pacific Coast but here also it is said the factories cannot supply the demand. The dealer has to take what he can get when he can get it.

In the January issue of the Grand Rapids Furniture Record, the national journal of the furniture trade, published in the leading furniture city of the world, appears an article containing the opinions of leading furniture manufacturers in all the furniture centers telling why furniture prices will increase rather than decrease during 1920. Some say prices will not go lower for five years, but most of the manufacturers expect conditions to begin to grow normal in three years.

In the last five years the cost of labor has tripled in the furniture factories, and lumber has advanced 300 to 600 per cent. Mirrors and other materials are the highest they ever have been, and each month sees a slight increase in all materials. Factories can't buy a year's supply like they did in the old days and must be satisfied with one carload of lumber, where before they purchased whole train loads at a time. This keeps the price on the increase.

The better grades of lumber, especially walnut, are more plentiful than cheap lumber, that's why the better grades of furniture are more economical than the cheaper grades. Most furniture factories are over-sold for from six to twelve months, and most dealers are crying for furniture. Only those with foresight will have sufficient furniture on hand to run them this winter. Those with small stocks must increase prices by spring or quit business.

"The family in need of furniture will not be able to buy it any cheaper than now" says Ed. Metzger, the local furniture dealer, "unless it desires to wait three to five years for normal conditions in the furniture industry."

It pays to advertise.

ALUMNI-HIGH GAME RESULTS IN A TIE

The game played last Tuesday between the former U. H. S. football stars, representing the alumni, and the fast high school team was a surprise to all supporting the alumni.

The odds would really go to the high school if there was any distinctions to be made concerning the class of the two teams. The speedy Hi team, though they were outweighed ten pounds to the man, smashed and broke the all-stars beefy line. In the first half they were within two yards of victory, but the heavy field and the end of the quarter prevented the touchdown that would have given the game to the High school.

The Alumni with all their vast amount of beef were not able to come any nearer than the Hi school's 20 yard line.

The game was a hard fought struggle from the first down to the last whistle.

With the six victories to their credit the Hi school boys were always in the game with all of the "old U. H. S. fight."

The Hi school team was a star as a whole, but the work of Ted Johnston in the back field and Al Camp on the line put them in the lime light.

Orval Zimmerman, the Alumni "Moose" center was their star player.

With no score the annual Alumni-Hi game ended.
