"The Linotype Way is the Way that Wins."

Official paper of the Town of Gresham Official paper of the Town of Fairview.

Entered as second-class matter March 3, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

WHAT WE DETERMINE.

What the new year has in store for you, for me, is a matter we would like to have disclosed but we cannot know certainly. It is certain, however, that each of us can determine by our attitude and purpose and effort just what we want this new year to mean for us individually.

No matter to what extent one has courted failure in the past he can take this as a new opportunity to get on the right side of every affair that concerns himself and court success.

The figures 1920 just now seem magical. They are an Aladdin's lamp placed in your hands. But they should not be regarded as a charm. The element of luck should be eliminated. Nineteen twenty means a cold hard fact but a very inviting opportunity.

There never was a stronger call for each and every man and woman to take careful account of his or her stock in trade, both of mental and material resources, and devote it to the highest interests of human progress.

There must be something wrong somewhere if anybody can write 1920 and say that represents an easy time for me. Any sober-minded person must conclude that, strenuous as have been some of the years of the past, this year spells activity, conservation, reconstruction, production, and all else that means safe and sure progress.

Let's crowd the laggard off the earth. Let's make it harder for the profiteer, the autocrat, the self-seeker and easier for every honest toiler among men. There are greater victories for the good of men and nations to be won in 1920 than were wen in 1918 or 1919.

BITTER MEDICINE FOR SOME.

The stricter enforcement of the motor vehicle law generally throughout the state seems to work a hardship on a great many persons, but it is one of the best things that could happen, even to the violators if they could realize it.

The frequent arrests serve to show how utterly unmindful of the law, and often of public safety, if not of their own safety, many auto drivers have become. Many of them have not taken even the simplest and most reasonable precautions.

It is hard for the well meaning but thoughtless driver to be subject to arrest and perhaps pay a fine or go to jail, but its safe for all concerned. There may be cases where real injustice is done a driver but there are more cases where a guilty party manages to escape his just deserts. Anyway, when the safety of human life is involved, it is poor policy to criticize the officer sworn to enforce the law. Better take the medicine with as good grace as possible and learn the lesson. Be careful; be safe.

A "Happy New Year" doesn't mean just a happy new year's day.

Have your sinks and tables the right height. They save a housekeeper's time.

The revival preacher is going to get after the scalps of some of you people. Better take to the woods or 'fess up.

JOSE RIZAL, FILIPINOS NATIONAL HERO, HONORED

December 30th was one of the greatest day of the year in the Philippine Islands. This date was observed by Filipinos in every city in the United States where there are any Filipinos to observe it.

December 30th was the day on which Dr. Jose Rizal, the national hero of the Philippines, was executed. He was condemned to death and executed by the Spaniards in 1896 on a trumped up charge of treason. He had been an indefatigable worker for Philippine reforms, and had become a thorn in the side of the colonial governors of Spain.

While awaiting death in his cell during his last night on earth Rizal wrote a remarkable poem, "My Last Farewell." He secreted the manuscript in an alcohol cooking lamp, where it was found after his execution.

This poem seems especially appropriate at this time in view of the fact that only two years after Dr. Rizal's death the government of the islands was transferred to the United States. A system of education was set in motion preparing the people for future self-government and the time seems near at hand when their wish to be independent will be granted.

Parts of Dr. Rizal's poem is as follows:

My Last Farewell.

Land I adore, farewell! thou land of the southern sun's choosing.
Pearl of the Orient seas! our forfeited Garden of Eden.
Joyous, I yield up for thee my sad life, and were it far brighter,
Young, rose-strewn, for thee and thy happiness still would I give it.

* * * * *

When my tomb, that all have forgot, no cross nor stone marketh,
There let the laborer guide his plow, there cleave the earth open,
So shall my ashes at last be one with thy hills and thy valleys.
Little 'twill matter, then, my country, that thou shouldst forget me!
I shall be air in thy streets, and I shall be space in thy meadows;
I shall be vibrant speech in thine ears, shall be fragrance and color,
Light and shout, and loved song, forever repeating my message.

Idolized fatherland, thou crown and deep of my sorrows,
Lovely Philippine isles, once again adieu! I am leaving
All with thee—my friends, my love. Where I go are no tyrants;
There one dies not for the cause of his faith, there God is the ruler.

Farewell, father and mother and brothers, dear friends of the fireside!
Thankful ye should be for me that I rest at the end of the long day.
Farewell, sweet, from the stranger's land, my joy and my comrade!
Farewell, dear ones, farewell! To die is to rest from our labors!

To h—l with h. c. l. It's mostly how you look at it anyway. The law of compensation still operates in this old world.

Zero Cold Test Oil Best for Winter Motoring.

"Using a Zero Cold Test oil made from selected California crude oil assures correct lubrication of the automobile in cold weather right from the first turn of the motor," stated Mr. C. A. McCarty, local agent of the Standard Oil Company, yesterday.

"That's why there is such a demand in this cold weather for Zerolene Medium and Zerolene Light. These Zero Cold Test Oils do not thicken excessively in any temperature above Zero and because they keep their fluidity, or free flowing body, they keep the automobile engine flexible in cold weather.

"Some motorists do not realize that the oil in their engines may congeal at low temperature—at least they do not realize it until serious damage to the poorly lubricated engine brings it forcibly to their attention. An engine started with congealed oil runs for sometime without sufficient lubrication until the thickened oil can be heated and its fluidity restored. After this process has been repeated time after time during the cold weather months it is not necessary to tell the damage that may be done by that time—the motorists knows what excessive friction can do.

"Zerolene Medium (Zerolene Light for Fords) is a high quality lubricating oil having a Zero Cold Test. It will flow freely at all temperatures above Zero and prevent excessive friction in cold weather by giving the necessary correct lubrication to the engine at all times."

WHY THE ELECTRIC CLEANER?

There is really no comparison between the ease and thoroughness with which an Electric Cleaner removed dirt and the difficulty of sweeping.

True, one CAN clean rugs and carpets without an electric cleaner. A broom or carpet sweeper will brush up SOME of the dirt; and if you like the exercise and have plenty of time and strength a broom and a carpet beater will do the work after a fashion.

In the same way one can wash without soap. Water alone will remove some dirt if applied with enough "elbow grease."

But people use soap because it cleans more easily and better than water alone.

For the same reason people use Electric Cleaners because they clean more easily and far better than other methods.

Engagement Announced

Mr. "Grippe" and Miss "Flu" are busily engaged again, but—the minute you feel a cold coming on, begin to have fever or chills, dull aches or constipated, it may be the Flu or Grippe.

Before retiring, bathe your feet in hot salt water, take a good big cup of **HOLLISTER'S ROCKY MOUNTAIN TEA** (warm) and go to bed for the night—it's a 10 to 1 shot you'll feel great the next morning.

Without fail try this—but do it quick before the "Flu" or Grippe gets a start. Buy a package today, have it in the House and use it at the very first warning—then you're safe.

New the strain of the holiday is over, let's get down to business. Most of us feel the necessity of doing so more than ever.
