

Ford
THE UNIVERSAL CAR

Only a Limited Number of Ford Cars

There are mighty good reasons why you should buy your Ford car now. But the biggest one is that there are only so many Ford cars—just a specified limited number—allotted to this territory. Those who buy their cars now will be wise. They will have them to use whenever they wish.

Don't put it off—next spring, even next month, is an uncertainty. We cannot take orders for spring delivery. Even now, we must have signed bona-fide orders before our monthly allotment is shipped us. So the only way for you to be sure of getting a Ford car, is to order it now. Get your name on an order. It is your protection.

Again we tell you, the allotment for this territory is limited and you must buy now while deliveries are possible. As ever, the demand for Ford cars is away in advance of production. So, it's first come, first served. Spring, summer, autumn and winter are all the same to the Ford car. It is a valuable servant every day of the year. Rain or shine, it is ready for your demands. Buy now and get prompt delivery. You won't have to store it. You can use it. Buy now while the buying is possible.

WHY THE ELECTRIC CLEANER?

There is really no comparison between the ease and thoroughness with which an Electric Cleaner removed dirt and the difficulty of sweeping.

True, one CAN clean rugs and carpets without an electric cleaner. A broom or carpet sweeper will brush up SOME of the dirt; and if you like the exercise and have plenty of time and strength a broom and a carpet beater will do the work after a fashion.

In the same way one can wash without soap. Water alone will remove some dirt if applied with enough "elbow grease."

But people use soap because it cleans more easily and better than water alone.

For the same reason people use Electric Cleaners because they clean more easily and far better than other methods.
