OUR RESPONSIBILITY.

The educational interests of a locality are its most important assets. We may have to work to earn our own bread and butter but working conditions should be such that everyone can devote some time and money to educational purposes.

Gresham is highly favored educationally. But can anyone take these advantages and use them without the thought of passing them on to others? They are the result of the cumulative effort of those who have gone before.

BUSINESS IS GOOD.

The business of the railroads is a key to the general business situation. When business is good the railroads find use for all their equipment and lay plans for enlargement.

It is to be hoped the return of the roads to private ownership will be the stimulus to investment and development which will lead to improved efficiency.

The report of W. T. Tyler of the division of operation of the government railroad administration recently made says: "The year 1919 has been divided very evenly between a period of business depression, during which there was a very general hesitation on the part of the purchasers due to unsettled price conditions, and one of tremendous business revival in practically all lines."

From a condition in which there were stored over 480,000 freight cars for which there was no loading, developments were such that a little after midyear these were not only quickly absorbed but a condition of shortage developed.

WHAT DO WE LIVE FOR?

We live, or should live, for the good we can do and the happiness we can gain for ourselves and others.

In this busy work-a-day world, this age of strife to get ahead, these higher purposes are often overlooked. If this failure is persisted in life will be rated a failure.

The Christian man prays daily that he may not miss this all important principle in life—without it life is not worth living.

What has become of the committees in charge of making the plans for an automobile park in Gresham? The tourist season will be upon us in a few weeks and, with her splendid location, Gresham ought to be an attractive place for motorists.

No other state has such a wide area of fertile land uncultivated by railway lines as is represented in the great Central Oregon country—an area nearly as large as the state of Ohio. Think of the possibilities of the future when the land is under full cultivation and served by carriers.

Don't forget to plan your work so that you can take advantage of the 5-day Chautauqua which will be held in Gresham in June. The committee will soon be able to announce date and definite plans for the event.

When the loganberry was first introduced it was regarded as a failure—it would not hold up under shipping. This fault has now been capitalized, and the fame of Oregon is being spread through the advertising of "The Loganberry Juice."

BWARE OF SWINDLING SCHEMES.

It is amazing the number of wild-cat schemes that are abroad in the land to separate common folks from hard-earned money. The Outlook most earnestly advises its readers to be watchful of all allures—all of them.

The mails are chuck-full of prospectuses of swindling concerns, especially swindling oil companies. Clever writers compose them, using their crooked brains to make even the cautious unsuspecting.

The latest we have heard of is a so-called California ranch company that says it has started a cat ranch with 100,000 cats. Pussy gives birth to an average of 12 kittens a year. The company proposes to kill 5000 a day and sell the fur at 30 cents a piece.

Preposterous, of course, but in one of our biggest American cities, 50 prosperous business men made inquiries about the shares in this scheme at a bank which had posted the "ranch" prospectus in its window as a horrible example.

MELROSE AND VICTORY

The adult Bible class will take up the study of Lesson VI "Jesus the Teacher." The junior class will commence studying the life of Joseph. The meeting Saturday evening promises to be one of great interest.

Mrs. J. Lynch will be present and organize the local Parent-Teacher association. The school children will give a debate on the subject, "Resolved, that the horse is more useful than the tractor."

The blind evangelist, A. J. Freeman, will sing and speak at the Haley Baptist church next Saturday evening, March 6. This promises to be a service of exceptional helpfulness and all are invited to be present.

CORBETT

The fame of Oregon's fruit circles the world.

The reputation of Oregon cheese extends to foreign countries.

In the manufacture of cereals, Oregon equals all and surpasses many other states west of the Rocky Mountains.

Oregon walnuts and filberts are fast growing in favor and when the growers standardize their marketing methods, the Oregon nut will take its place in National markets.

GRESHAM PEOPLE PREVENT APPENDICITIS

Many Gresham people are using simple glycerine, buckthorn bark, etc., as mixed in Adler-I-ka. This flushes BOTH upper and lower bowel so completely it removes all foul, accumulated poisons from alimentary canal and prevents appendicitis.
