SALVATION ARMY CALLS CONVENTION FOR MAR. 17

The call has gone out for one of the most important conventions ever called in Oregon—a convention in which business and professional leaders of the state will consider nothing but the state's need of measures to alleviate social distress. There will be upwards of 150 of the state's substantial and representative citizens at the convention. They will come from all counties of the state and will be the chairmen and at least two other members of the more than 40 advisory boards formed to aid the Salvation Army in the expansion of its Home Service program for 1920. The convention has been called by Mayor Geo. D. Baker of Portland, chairman, and Henry E. Reed, assessor of Multnomah county, secretary of the State Advisory Board of the Salvation Army Home Service Program of 1920. It will be called to order at 10 o'clock on the morning of March 17th at the Portland Hotel convention hall.

The call comes following a study of each county by the advisory boards of the counties and the submission of confidential reports by the advisory boards to the state headquarters. These reports were studied today by the state advisory board and the call issued to members of the county advisory boards says:

"On reviewing the studies turned in from the various county boards it has been found that such conditions exist as demand immediate action on the part of the state advisory board. To this end we are extending an invitation to every member of the various county advisory boards for a great conference to consider the problems before us."

"The situation demands quick action. For the first time in the history of Oregon the big business men of the state are called to consider problems so delicate and of such vital importance to the citizenship of the state. This is big business and we desire you as one of the strong business men of your community to assist us in the solution."

Members of the county advisory boards throughout the state are the most influential men of each county who have seen the necessity of the work of such an organization as the Salvation Army in the remote sections and smaller cities of Oregon as well as in the metropolis.
