PATRON-TEACHERS PLAN TO FURNISH REST ROOM

The Gresham Patron-Teacher association is to have a basket social on May 7. Already the committee in charge has arranged a splendid program and promise that it will be the funniest ever. It will be a Mother Goose up-to-date and funny stunts are promised which will insure a good time to all. It will also be in the nature of a basket social and ladies are requested to plan their baskets early. The object of the social is to raise money to furnish a first aid room on the first floor where injured children may be cared for when needed. Always in the past if any of the children were taken ill or were injured in any way they had to be carried to a neighbor's house or cared for the best way they could be managed at the school building. It is the plan of the Patron-Teacher association to fit the room up with a cot and necessary supplies for first aid work.

They are also planning on furnishing a teachers' rest room on the main floor. The plans may include a magazine exchange. This rest room will be a great convenience and may be used for Patron-Teacher meetings if desired.

The next regular meeting of the association will be held at the grade school Wednesday, April 21, at 3 o'clock. Mrs. C. W. Hayhurst, president of the State Federation of Parent-Teachers associations, will be present and address the members.

Im going to quit letting My Money slip through my fingers

PUT A CHECK ON YOURSELF. YOU'LL BE GLAD SOME DAY. IF YOUR MONEY IS IN OUR BANK INSTEAD OF IN YOUR POCKET, YOU CAN'T LET IT SLIP THROUGH YOUR FINGERS. IF YOU PUT SOME MONEY IN THE BANK EVERY PAY DAY YOU'LL HAVE ENOUGH SOME DAY TO GO INTO BUSINESS FOR YOURSELF.

START A FORTUNE.

PUT YOUR MONEY IN OUR BANK. YOU WILL RECEIVE 4 PER CENT INTEREST. FIVE PER CENT ON TIME DEPOSITS OF \$500 OR OVER.

THE GASOLINE SITUATION

The Necessity of Conservation

There exists today on the Pacific Coast an acute shortage of gasoline. As this Company has pointed out on several occasions, the condition is due to insufficient production of crude oil and a greatly increased consumption of gasoline by industry and by owners of pleasure cars.

Gasoline is a vital factor in the life of the community, industrially and otherwise, and it is of the greatest importance, at this juncture, that it be used with the utmost discretion, that essential requirements may be supplied.

The present is by no means the season of maximum demand, which comes later in the year. The condition, therefore, is likely to be continuing, rather than transitory.

Responsibility for meeting the situation does not rest solely upon the oil industry. The public also has a serious duty in the matter.

On its part, the Standard Oil Company is straining its resources and organization to increase the supply of gasoline. In the field it is working for the maximum production of crude oil. In the refinery it is working for the maximum production of gasoline from the crude oil and it is spending large sums of money on equipment for new processes, of its own discovery and development, whereby a still greater yield of gasoline will be obtained.

The point already has been reached where gasoline must be conserved most carefully. That is a duty of the public. In consumption of this product, essential industries must necessarily come first—pleasure utilization thereafter.

Already the Company has taken steps toward protecting the supply for the vital needs of industry which, if lessened, would affect the business life of the community. There is now the danger of a curtailment of supply to non-essentials such as pleasure cars.

The assistance of the public, therefore, is imperative. Until lately, gasoline has been abundant, and its lavish and extravagant use has been possible. That time is past.

Buy as little gasoline as possible.

Use what you must—Waste none.
