**Not Your Money
 But Your Good Will**

We want the good will of every car owner in this town.

We want everyone to say what lots of folks say now—"Willard? That's where you get a square deal and value for every dollar."

We'd rather have your good will than an extra dollar or two on a repair job.

We'd rather sell you a battery that will give longer and better service than to make a living by repairing poor batteries.

Of course good repair work and good batteries cost more, but we believe they make friends and buy good will.

Let's get together.

REPORTER MIXES UP NAMES IN FISH STORY

The Outlook reporter made a grievous mistake in the last issue of the Outlook and she begs to apologize to the injured parties. Through some unexplained way she mistook the name of Fred Todd for that of Bert Hoss and the latter gentleman got the credit for catching one of the fine salmon displayed at Metzger's store last week when Mr. Todd was the lucky fisherman.

If any one wants to get a look at a fine salmon perhaps they can persuade Mr. Kessler to show them one of the fine salmon which he has been catching lately. He had a fine big salmon on display in his shop Monday.

THE STRENGTH OF A BANK

The strength of a bank depends primarily upon the ease and speed with which it can make its assets available in cash when needed.

Because of our membership in the Federal Reserve System, we can at any time instantly obtain cash by rediscounting with the Federal Reserve Bank the commercial paper which constitutes a large part of our assets.

This in effect increases our available reserve and insures our being able to meet demands for cash at any time.
