This is a fact, and the contract made with the Pacific Phonograph Manufacturing Co., involves not fewer than 10,000 Stradivara Phonographs a year for five years and the total consideration will approximate \$5,000,000.

The machines are gaining a nation-wide reputation, and you have the benefit of the supreme perfection in musical genius when you purchase a Stradivara.

MEMBER FEDERAL RESERVE SYSTEM

## THE STRENGTH OF A BANK

The strength of a bank depends primarily upon the ease and speed with which it can make its assets available in cash when needed.

Because of our membership in the Federal Reserve System, we can at any time instantly obtain cash by rediscounting with the Federal Reserve Bank the commercial paper which constitutes a large part of our assets.

This in effect increases our available reserve and insures our being able to meet demands for cash at any time.
