OUR SUBSCRIPTION RATES One year, \$1.50, six months, 85c, three months, 50c.

ADVERTISING Rates reasonable. Our representative will call.

Official paper of the Town of Gresham, Official paper of the Town of Fairview.

Entered as second-class matter March 2, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

Plant Disease Loss is Reduced in State.

By keeping in touch with the health and disease conditions of the crops in the state, the plant pathology department of the Oregon Agricultural experiment station is doing work that tends towards maximum yields and reduced losses due to attack of disease-producing fungi.

When growers send in to this department specimens of diseased or abnormal crops it is often possible to send back to them specific control information which in some cases may prevent a large part of the crop losses caused by disease.

A few precautions in handling specimens will insure their reaching the experiment station at Corvallis in good condition.

Send plenty of specimens and include all plant parts if possible. Choose representative specimens—those on which the disease is present in its early stages and others on which it is present in its later stages.

Pick the specimens early in the morning for they are fresh at that time. Green parts of plants will be kept from drying out to a great extent if they are wrapped first in oiled or waxed papers and then rolled up in newspapers.

Government franked tags, requiring no postage may be had from the experiment station at Corvallis.

Send along with the specimens a full description of the trouble and amount of damage.

Banks Do Good Work.

The banks of the country deserve great credit for the educational work they are doing to guide the public along conservative and constructive lines.

Leading financial institutions are encouraging industrial development and preaching the work and save doctrine as the logical remedy to bring about normal conditions.

Some of the best reading matter of today is found in bank publications dealing with current problems.

This is free to the public and has great educational effect from the standpoint of showing the reasons for abnormally high prices and the remedy.

The truth the banks are teaching is that our national prosperity rests on a sound industrial system and the ability of our people to create new wealth through production and saving.

Poultry.

If too much feed is given the hens will not work enough—in other words they will not get exercise enough to properly digest and assimilate the food.

If skim milk or buttermilk is available at reasonable cost, no other animal food will be necessary for the laying hens, providing the fowls can be made to use enough milk to supply the necessary amount of animal nutrients.

The efficiency of an egg-laying ration depends mainly upon two factors: the ration itself, or the feeds of which it is made up, and the method of feeding.

Industrial Expansion with more industries and payrolls to give men, women and young people who want work. Steady Employment destroys the germ of discontent that attacks the life of the nation.

AGED WOMAN LAID TO REST AT PLEASANT HOME

Louellen Enochs was born in Morgan county, Ohio, June 14, 1839, died in Vancouver, Washington, June 4, 1920, lacking only ten days of being 81 years of age.

At the age of three years she moved with her parents to Gentry county, Missouri, where she grew to young womanhood and at the age of 17 was united in marriage to T. H. Van Fleet. To this union was born six children, four sons and two daughters.

In 1889 the family came to Oregon settling in Powell Valley. About a year later they moved to Cottrell where she resided until her death. Her husband died in January, 1900. Since that time she made her home with her son Elmer, but at the time of her death she was visiting her daughter, Mrs. Edwards, in Vancouver, Washington.

Early in life she united with the Methodist church, was later transferred to Pleasant Home, and continued a faithful member until her death. She always had a wonderful faith in God and was ready to go when the call came.

She leaves to mourn their loss three sons, J. C. VanFleet of San Pedro, California, Elmer E. of Cottrell, Oregon, Charles W. whose residence is unknown, two daughters, Mrs. H. V. Edwards of Vancouver, Washington; Mrs. C. Shetterly of Portland, Oregon; one foster daughter, Mrs. Frank Canning of Marmot, Oregon; five grand children, five great grandchildren and a host of loving friends.

Funeral services were held in the Methodist church at Pleasant Home Monday afternoon at 2 o'clock. The services were conducted by the pastor, Rev. Earl B. Cotton. Many friends attended these services and many beautiful flowers were left in loving tribute to a dear friend. Interment was in the Pleasant Home cemetery.

INCOME TAXES DUE BEFORE JUNE 15

June is a busy month for the Internal Revenue Bureau as during that month all special taxes for the fiscal year ending on June 30, 1921 are due and payable.

Collector of Internal Revenue, Milton A. Miller, has mailed out to all special taxpayers forms upon which return for payment of tax must be made. These special taxpayers include proprietors of theaters, for hire automobiles, pleasure boats, pool and billiard tables, bowling alleys, shooting galleries, retail dealers in oleomargarine, brokers, pawn brokers, etc.

Other classes of taxpayers affected are druggists, physicians, dentists, and other practitioners, who must complete their re-registration under the Harrison Act not later than July first, after which date they will be delinquent.

On or before June 15th the second installment of income tax will be due and payable, and notices for this tax were sent out some weeks ago. Persons who fail to pay the quarterly installment due on June 15 will be required, within ten days after notice and demand, to pay the entire outstanding balance on their income tax, as failure to pay one installment when due makes due and payable all the remaining installments which would ordinarily be due on Sept. 15 and December 15.

Collector Miller would greatly appreciate the cooperation of taxpayers in making their returns and payments as early in June as possible.

O. A. C. STUDENTS PRINT CORVALLIS PAPER

During the past few weeks exchanges from all parts of the state have been coming to the Outlook office. All are interesting, some especially so but early this week a copy of the Corvallis Weekly Gazette-Times was received which was of more than usual interest locally.

This particular copy was entirely the work of O. A. C. students of industrial journalism. The students borrowed the whole plant of the Gazette-Times and the proprietors took the opportunity to go fishing while the O. A. C. students put out a very fine 10 page paper. Glenn O. Rusher was one of the contributors to the paper which was known as the O. A. C. Industrial Edition.

The students run the whole plant, set up the type, run the press, the linotypes and had charge of the paper from the editor's desk to the folding machine.

It is a good live paper and a copy is on file at this office.

Does your suit need cleaning? The Gresham Steam Laundry will do it for you. Give us a trial.—Adv.

FAIRVIEW VOTERS ASKED TO CONSIDER

The following letter has been addressed to the voters of Fairview district:

TO THE VOTERS OF FAIRVIEW: Answers to points brought out in Mr. McKay's letter against Fairview joining Union High School No. 2.

1st. Yes, it is true your children are privileged to attend high school in the state if there is room for them, but there is no room, as all high schools are overcrowded now and the boys and girls of poor parents cannot afford the expense of transportation if there was room; but in case students wish to specialize in studies that are not provided by the Union High school, and they can gain admission to a school carrying their speciality, we will pledge that their tuition will be paid by the union district.

2d. Yes, your tax would be slightly increased, as, according to your assessed valuation you would be required to carry about one-eighth of the cost of the high school, and of this one-eighth, the Public Service companies will pay 43 per cent.

3d. You say another reason why you should not join Union High is that you may wish to have a high school of your own in the future. My answer is, if you cannot afford to join the union and pay 13 per cent of the cost of maintaining a first-class high school, how soon will you be ready to pay the 13 per cent and the balance of 87 per cent needed to support as good a school as you are now offered by paying the 13 per cent?

And further, pray tell us how soon you will have enough high school students to warrant you in making the larger investment? You will doubtless concede that you should have at least one hundred pupils; you have ten now, so at the same ratio, your population would need to increase 1000 per cent to provide the one hundred students. Your district is 2x2 1/2 miles and the population will be very dense when you have one hundred students, and those that wish to go to high school now, will be grandfathers and grandmothers.

My advice is to vote "YES" on Saturday the 12th, and get the advantages of a first-class high school for all of your boys and girls, rich and poor, for 13 per cent of the cost of operation, and save the other 87 per cent.

Portland with a population of 258,000 people has only seven high schools. The list includes Girls' Polytechnic, Benson Polytechnic and James John High.

Respectfully submitted, (Signed) D. E. TOWLE.

BRIDE-ELECT HONORED WITH SURPRISE SHOWER

Miss Florence Wilhelm was pleasantly surprised Tuesday evening when a party of friends met to give her a miscellaneous shower in honor of her approaching marriage. The friends who came bringing gifts of china, glassware and linen and presented them with many wishes for a long and happy future.

A delicious luncheon was served at a late hour and the evening was pleasantly spent in games and music.

Miss Wilhelm returned recently from Grass Valley, Oregon where she has closed a successful school year. Some time this month she will be married to Lester Becker of Centralia, Washington and the young people will probably make their home in or near Centralia.

Miss Wilhelm is the eldest daughter of Mr. and Mrs. Laurence Wilhelm of the Victory district.

The Farmers Mutual Fire Relief

Assn. reports a successful year. The annual report of the association shows \$2,634,000.00 of risks written and 1010 new members gained in 1919. Mr. H. W. Snashall was re-elected President for the sixteenth time and Mr. Ferd Groner of Hillsboro was elected Vice President. The Association carried close to \$7,000,000.00 and is forging ahead rapidly. It insures for protection only, not for profit. We invite farmers to become members. See H. W. Snashall, Gresham, R. F. D. 4. Phone Gresham 85.—Adv.

The Gresham Steam Laundry is prepared to do steam cleaning and pressing. Let us do your work.—Adv.
