Official paper of the Town of Gresham. Entered as second-class matter March 2, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

THE NINETEENTH AMENDMENT.

The action of the special session of the legislature of Tennessee, which will soon meet, will be watched with special interest by the whole country. President Wilson has requested the calling of this session and urges prompt and favorable action in order to give the women of the country an opportunity to vote in the November elections.

In connection with this action the following editorial from the St. Louis Globe Democrat will be of interest:

There is no question about the ratification of the nineteenth amendment as soon as one more republican state has a session of its legislature, but in regular course that will not be until next January. To the credit of the republican party stand twenty-nine ratifications, while democratic states have ratified to the number of six only. Evidently the nineteenth amendment is and will continue to be a strictly republican movement, even should the final thirty-sixth state be democratic, which is not likely.

Special sessions should be called in time to complete ratification early enough to permit all women to register for the November election. They have already been kept out of the presidential primaries and in many states will be excluded from the local primaries. If they fail to register they will also be denied the right to vote in November even if the amendment is previously adopted.

THE RIGHT IDEA.

The Trade at Home idea is the right idea. We speak for every merchant, every business man and every professional man when we urge this practice. It should be the slogan of every farmer, every property owner, every citizen.

The important question is not, Can I save a few pennies by going to the city for my groceries and clothes, etc.? but, How much can I help my town by doing all the buying possible at home?

One thing a locality needs is community pride. Loyalty to home institutions is one of the cornerstones of strength and growth in a community.

This isn't stereotype stuff. It's right from our heart. We're not saying it for the advantage of Gresham alone. We mean it to apply to every locality within reach of the Outlook.

The principle we are urging is this: Patronize your home merchants and home institutions every way possible. If they haven't what you want and can't get it for you get it at the next nearest place, but keep boosting for your home town.

Help us develop the trade-at-home idea.

Don't Blame the Editor.

Don't blame the newspaper man for what happens in the community. If there is anything in the life of the place that you do not wish to go abroad in the world, blame yourself that it exists—not the paper for saying something about it. It is the editor's duty to make a typographical photograph of the town each week, and if you take a homely picture don't kick the instrument, but try to get a better expression on your face the next time.—Star, Union, Ia.

PASTOR CELEBRATES SEMI-CENTENIAL

Rev. A. J. Joslyn for many years an active minister of the Methodist Episcopal church in this vicinity, will celebrate the fiftieth anniversary of the preaching of his first sermon on next Sunday, July 4, according to a letter recently received from him by Dr. A. Thompson.

The service will be an all-day affair, including basket dinner at noon, and will be held at the old Rock Creek M. E. church near Needy post-office two or three miles east of Hubbard, where Mr. Joslyn preached his first sermon on July 4, 1870.

Dr. and Mrs. Thompson and possibly others from this vicinity are planning to attend the service.

WHY THE ELECTRIC CLEANER?

There is really no comparison between the ease and thoroughness with which an Electric Cleaner removed dirt and the difficulty of sweeping.

True, one CAN clean rugs and carpets without an electric cleaner. A broom or carpet sweeper will brush up SOME of the dirt; and if you like the exercise and have plenty of time and strength a broom and a carpet beater will do the work after a fashion.

In the same way one can wash without soap. Water alone will remove some dirt if applied with enough "elbow grease."

But people use soap because it cleans more easily and better than water alone.

For the same reason people use Electric Cleaners because they clean more easily and far better than other methods.
