MELROSE AND VICTORY

The adult Bible class had an interesting discussion last Sunday at the Sunday school on the question "What influence has heredity and environment on the will to do good?" The subject was too large to be handled in the short space of time allotted for class study so that it was decided to continue the discussion this coming Sunday. This time the question to be considered is a little different. "Is the will power stronger than the forces of environment."

MAKE it easier to get around and you make healthier and happier communities. No one any longer questions the worth of the automobile — or begrudges any legitimate expense connected with it.

But millions of car owners are rebelling at the idea that running an automobile has got to mean waste.

II

Every now and then you hear a neighbor complain that "he doesn't seem to have much luck with tires."

Send him to us.

The minute a man begins to question the service his tires are giving him, he's ready to listen to reason.

Our business is built on the principle that the only way to get better tire service is to get better tires to start with.

That's why we have taken the representation for U. S. Tires.

III

U. S. Tires have a reputation for quality.

Built up through years of creating better tires. Such as the straight side automobile tire, the pneumatic truck tire.

It is not by chance that U. S. Tires are made by the oldest and largest rubber concern in the world.

We are proud to represent U. S. Tires in this community.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—everywhere—U. S. Royal Cords.
