Economy That Proves Correct Design

Yosemite Run Gives Conclusive Evidence of Quality Construction and Economy of Triple Springs

THE REMARKABLE OVERLAND VICTORY in the 355-mile Los Angeles-Yosemite Economy Run registers another triumph for scientific light weight and the easy riding Triple Springs. The winning Overland stock touring car registered an average of 35.1 miles per gallon throughout the entire mountainous trip. This is, of course, better than average Overland mileage, but it is gratifying to drive a car whose design insures the best use of every drop of fuel.
