A crank is often a man who has a good idea which he can't work out; a success, the man who steals it and works it out.

Miss Bonnie Stillions is confined to her home with injuries which she received when she fell from the running board of the car on which she was riding Monday. A party of young people from the cannery went out toward the 12-Mile store for a ride during the noon hour. In making one of the turns Bonnie was thrown from the running board to the pavement and although no bones were broken she was severely bruised and shaken up and is still confined to her bed. It is hoped that her injuries will not prove serious and that she will soon be able to return to her work.

The bungalow which houses the thriving business of Frank C. Jones & Company is receiving a coat of paint which adds a great deal to the appearance of the already attractive shop.

Did you ever stop to chat with Dean Hale about roses? No? You have no idea what a pleasant hour you have missed. The Dean is a delightful English gentleman to whom roses are as personal as people. The climate of England is almost Oregon's so that all the Dean's ideas about rose culture are worth while trying. He is quite ready to discuss gardening at your own time.
