YOUNG SPANIARD TO STUDY FRUIT PACKING

A young Spaniard, Guillermo Cifre de Colonia, has registered for three courses in English in the Oregon Agricultural College summer session. He picked O. A. C. as being the best of all the institutions of the United States for his purposes. He hails from Mallorca Island, one of the Balearic group, belonging to Spain. He comes here to study horticulture, especially fruit packing.

Mr. Cifre expects to spend three years at the college, and to put in one year of study in the University of California. He speaks French, German and Spanish, and despite the fact that he has been in this country but two or three weeks, has comparatively little trouble in handling the English language. His mother came with him to Corvallis.

The young man was recommended by his Excellency, Juan Riano, Spanish ambassador, and was introduced to President Kerr by a letter from Frederico de Onis, professor of Spanish literature at Columbia university.

Cifre went to school two years in Berlin, and studied agricultural engineering for two or three years in the University of Madrid where it takes nine years to receive a degree.

"Books, books, books," he exclaimed. "The work is not practical. I came from a wonderful fruit country, but the people do not know how to pack fruit. I want to learn that."

WANTED—One or two cars of cordwood. First-class fir. August Obrist, R. A. Gresham, Oregon.

"Maybe imitation is the sincerest flattery," said Uncle Bill Bottletop; "but I don't see as a wood alcohol mixture is any special compliment to the memory of old John Barleycorn."

STOCKTON BROS. GET SCHOOL SHED CONTRACT

At a recent meeting of the school board, the bids on the construction of a playshed at the grade school were opened and the contract awarded to the Stockton Bros. who will commence work at once.

The contract calls for a shed 60 by 100 feet and it is to be finished by September 1. Work was to have been commenced today. It will cost the district \$3800.

Parents and children will appreciate this building as it has long been needed. The question had been considered a number of times but last winter an energetic campaign was put on with the result that this winter the children will have a suitable playshed in stormy weather.
