NOT AN ELECTRIC

The long low nose of the VACUETTE slides under heavy furniture.

Eleven years' study of sweeping—eleven years' of experimenting with all types of cleaners is behind the VACUETTE.

Light in weight (6½ lbs.) the VACUETTE is easy to carry from place to place—and it sweeps from room to room without requiring "connections."

In the machine as offered you today the inventor of the

(Not an Electric).

has made possible the housewife's age-old dream.

With each cleaner goes this guarantee of the exclusive manufacturers,

THE SCOTT & PETZER CO.
Cleveland, Ohio

This certifies that this cleaner, after a thorough and painstaking inspection and test meets our rigid requirements.

It is hereby guaranteed for one full year against all defects in workmanship and material; if any part proves defective in this period, we will replace it without cost to you except carrier charges.
