ADVERTISING Rates reasonable. Our representative will call.

Official paper of the Town of Gresham. Official paper of the Town of Fairview. Entered as second-class matter March 3, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

A FREAK MEASURE.

As is always the case where a number of measures are to be voted on at the election, some are vicious and some are peculiar, but it seems that the one on the divided session of the legislature is the most freakish.

The purpose of this bill is given as follows:

To provide for divided biennial sessions of the legislature into two periods: First period of 40 days, convening second Monday in January, 1921, and biennially thereafter, to be devoted exclusively to the introduction and consideration of bills, resolutions and memorials, and to final action only on governmental appropriation measures; second period of 10 days, convening third Monday in April following, to final consideration of bills, resolutions and memorials, and prohibiting any amendment thereof except upon four-fifths vote of each house; fixing compensation of members at \$3 per legislative day; limiting extra sessions of legislature to subject matter of executive proclamations.

Members of the legislative assembly in attendance at any regular session shall be entitled to mileage allowance for attendance at each period of the session at the same rate heretofore prescribed, and to per diem compensation at the rate of three dollars for each legislative day. There are a good many reasons why this bill should not pass and first but not least is the extra expense it would require, for it would cost exactly as much for the short session as the long one as far as travelling expenses are concerned. Then the necessary work would be doubled of putting the house and senate chambers in readiness for the assemblies and after the session these same chambers must again be put in order, for they can not be left as they were used. Why not extend our legislature to 60 days at one meeting and increase the working days but not add necessarily to the expense? Senator D. C. Lewis says on this subject: Will you kindly call the Gresham Outlook reader's attention to the fact that taxes are growing; that every measure that costs money adds to the burdens; that it will cost from \$15,000 to \$30,000 more to conduct the "divided session" than a continuous one; that the members of the legislature and all the clerks will go home under the divided session plan at the end of 40 days, and return at the end of 60 days and to do so costs money, the mileage rates for members being 10 cents per mile.

The way to defeat the divided session proposition, and thereby prevent a freak measure from finding lodgment in our constitution is to vote 302 X Yes and 319 X No.

There is urgent need of a public telephone booth for night services. There is no place where the public may go and telephone in the night no matter how badly the need might be.

HE KEPT US OUT OF WAR?

One of the chief accusations against the democratic party is that it deceived the country four years ago with its slogan, "Thank God, he kept us out of war." The declaration of the democratic nominee for president is just as misleading. He says that the "League of Nations covenant will do away with future wars." Is this not the same kind of promise as that made four years ago? President Wilson knew that this country would become a party to the war. He knew the moral sense of this people, their sense of moral obligation. He admitted this fact on August 19, 1919 for he said:

"Our moral conviction of the unrighteousness of the German war would, I hoped eventually as the thing developed, have brought us in to this war if Germany had not committed any acts against us."

"If Germany had committed no act of war or no act of injustice against our citizens, I think we would have gotten into the war."

The president of the United States is the constitutional head of the government. Foreign relations are completely subject to his initiative and leadership. Congress and the people must await that leadership. The president in a time of international difficulty has the facts; he must interpret them, advise with congress, and give leadership to the country. Then why did the president allow the statement to go out that he would keep us out of war, and mislead the sentimental public in supporting him, when if they had only coolly thought the question over they would have

known, as he later admitted, that war was inevitable.

Is Mr. Cox going to deceive the public in the same way again?

Has the League of Nations prevented war? Let us look at Europe today.

The League of Nations, including some 40 governments, has been functioning for the last year or more. At the present time there is war between Greece and Turkey. England has armies in Afghanistan and Mesopotamia. A civil war is devastating China. The peace pact between Poland and Lithuania continued long enough for the diplomats to embrace and congratulate each other over their treaty. France is fighting against the Turks and Arabs. Italy is at war with the Turks around the Mediterranean. Poland has been fighting for her national existence.

What then has the League of Nations accomplished? Think, Mr. Voter, think! Do not be misled by every slogan that the democratic party presents.

Let's support the Port bill. Why should not Oregon have one of the leading ports of the world? Take Hamburg for example, a city 85 miles from the sea, whose channel was less than 6 1/2 feet at zero stage, allowing mud flat before the people awoke to the fact that their city could be of world renown. A few decades ago Hamburg was a city of 250,000 about Portland's present population. Now it numbers over a million and before the war was perhaps the greatest port in the world. Portland has just as great resources as Hamburg if they are only developed. Improve the port, extend a hand of welcome to the world and grow.

Elect Harding. Yes, also a republican congress.

A very great improvement has been noted in the telephone service.

Dr. Harvey W. Wiley Says "Vote 313 No"

Speaking before the Members' Forum of the Portland Chamber of Commerce, Dr. Wiley, formerly head of the Government's pure food bureau and known as the "Father of the Pure Food Laws," declared that the title of the bill was a misnomer and that it should be called "a bill for the increase in mortality in children."

"Never before have I been in a community where matters pertaining to public health have been taken out of the hands of experts and put to a vote before the people," declared Dr. Wiley. "I do not think that a parent in this state who has children of school age will vote for this measure, because it means that the school children will not be protected against contagious diseases."

THE PERSON WHO WANTS TO KEEP ON

progressing must make certain that his health is "right side up with care." One good way to make certain of this is to purchase meats whose quality-guaranteedness will make him feel certain that his digestion will assimilate the proper food values. One way to make certain of that is to buy your meats here.
