Official paper of the Town of Gresham, Official paper of the Town of Fairview.

Entered as second-class matter March 2, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

HOW DIFFERENT.

What a change has come about during recent years in the character of polling places and the general method of conducting elections.

This is especially true in states where the gentler sex have had the ballot. A few years ago a friend of the writer, in a then non-suffrage middle western state, said he would not care to have his mother, wife or sister go to the polls.

When told that in Oregon we even had women members on our election boards, and that the voting place was as clean and orderly as any store, the objector could not understand it and probably thought it another over-drawn western story.

Of the 400 odd polling places in Multnomah county, at which people are voting today, there are about 60 in schoolhouses, churches, libraries, and similar places. About 30 polling booths today in Multnomah county are in churches or mission or parish houses. Many polling places are in private homes.

This is the first presidential election in which woman suffrage is practically universal. The effect of the women's vote will be watched and studied closely.

This is also the first national election since prohibition became nationwide and there will be no polling places today in legalized saloons. It is to be hoped there will be none anywhere in city or country, that a respectable woman may not enter and exercise her citizenship privilege as confidently as any man and feel as much at home and be treated as respectfully as she would be in any well conducted office or store.

Be it understood, women are in politics to stay and if voting is not conducted decently and in order the men will be required to do some housecleaning.

MATTER OF LEGISLATION.

With the near doubling of the number of ballots cast throughout the country, and the consequent delay in getting complete returns, there will doubtless be some changes demanded in our methods of counting votes. The present method, except in a few cities where voting machines are used, is slow, cumbersome and too liable to error.

In the first place the polls ought to close at six instead of eight. In the next place the election law should provide that the second board could begin work of counting at an earlier hour, even before the polls close.

With all the safeguards placed upon election boards, and the restrictions of the Australian ballot system, a few slight changes would greatly facilitate counting ballots, be as safe as at present, and add nothing to the cost.

HOW AND WHY WE NEED MUSIC.

The following is a resolution adopted by the Women's National Council of Canada:

- 1. Music is a necessity, not a luxury. 2. Every child has an inherent right to a musical education. 3. Unity through music is a means to civic improvement. 4. Patriotism is developed by music. 5. The spirit of comradeship regardless of race or creed is induced by music. 6. Music is the useful medium in constructive work in a community. The saloon and dance hall are being rapidly abolished; there must be established in their stead clean-cut amusements. 7. Music tends to encourage a higher form of citizenship. 8. Music is a powerful curative for mental, moral and physical ailments.

It is said this will be the first time in presidential elections when the wireless will be used on a large scale in gathering reports of the results. The Hamilton club in Chicago will be the "central" to which reports will be "wireless" from 50,000 stations throughout the country.

There are already several libel suits begun based on alleged incriminating libel in connection with campaign statements. It is probable which ever presidential candidate loses the election could get a strong case against his successful rival.

The improvement in the local telephone service is a matter of general remark and assurance is given that there is something still better in store.

What a Library Does For a Town. Completes its educational equipment, carrying on and giving permanent value to the work of the schools.

Gives the children of all classes a chance to know and love the best in literature. Without the library such a chance is limited to a very few.

Minimizes the sale and reading of vicious literature in the community, thus promoting mental and moral health.

Effects a saving in money to every reader in a community. The library is the application of common sense to the problem of supply and demand. Through it every reader in the town can secure at a given cost from 100 to 1000 times the material for reading or study that he can secure by acting individually.

Adds to the material value property. Real estate agents in the suburbs of large cities never fail to advertise the presence of a library if there be one, as giving value to the lot or house they have for sale.

Appealing to all classes, sects and degrees of intelligence, it is a strong unifying factor in the life of a town.

The library is the one thing in which every town, however poor or isolated, can have something as good and inspiring as the greatest city can offer. Neither Boston nor New York can provide better books to its readers than the humblest town library can easily own and supply.

Slowly but inevitably raises the intellectual tone of a place.—Exchange.

Missionary Society to Meet Thursday

The Missionary society of the Baptist church will meet at the home of Mrs. Frank Peak Thursday afternoon at 2:30 p. m. Automobiles will be at the library at 2 p. m. and will take all who wish to go to the meeting. Mrs. W. B. Hinson, wife of the pastor of the East Side Baptist church, will be the speaker of the afternoon. To those who have heard Mrs. Hinson no invitation need be given and those who have not will miss a treat if they are absent.

Mrs. E. W. Aylworth will sing a solo in her usual charming manner. She will be accompanied by Mrs. G. W. Page.

Messdames A. J. W. Brown, R. H. Todd, John Brown, Fred Southard, Will Hessel, John Metzger and E. Davidson are on the refreshment committee.

Storage battery repairing and recharging, starter and generator work. Raker & Son.

Gresham Electric Co.

Order by name—PEARL OIL.

STANDARD OIL COMPANY (California)

WHY THE ELECTRIC CLEANER?

There is really no comparison between the ease and thoroughness with which an Electric Cleaner removed dirt and the difficulty of sweeping.

True, one CAN clean rugs and carpets without an electric cleaner. A broom or carpet sweeper will brush up SOME of the dirt; and if you like the exercise and have plenty of time and strength a broom and a carpet beater will do the work after a fashion.

In the same way one can wash without soap. Water alone will remove some dirt if applied with enough "elbow grease."

But people use soap because it cleans more easily and better than water alone.

For the same reason people use Electric Cleaners because they clean more easily and far better than other methods.

CLASSIFIED ADVERTISEMENTS

In the beginning God saw man lacked pep;

Perigrinated with slow, aimless step.

Injected he persuasion, persistence and cheer—

Some, tough-skinned, weren't pheazed!—Don't look for them here.
