Firemen Have Large Crowd.
There was a large crowd at the firemen's ball given Friday evening, everyone enjoyed themselves and stayed till the limit of the law had expired. Socially it was a grand success but financially not so for the expenses of the music and other incidentals reduced the profits down quite low.

The city should support the firemen's cause by a reasonable tax, for the boys are doing a very great work for every member of the community.

PLEASANT HOME

The Methodist Ladies' Aid society will meet at the home of Mrs. H. Moulton Wednesday afternoon, November 3. A full attendance is desired.

Miss Hilda Byers, who has been for the past year in Wisconsin, returned a few weeks ago and has been visiting friends near Pleasant Home. Among those whom she visited were Mrs. M. Lennartz and Miss Bertha Abel.

The entertainment and social which was given by the Girl Reserves at the grange hall last Saturday evening was one of the most successful that has been given in this neighborhood for some time. There were more than a hundred persons present and a large number wore costumes. There were many different characters represented among which were ghosts, goblins, and clowns. Refreshments were served at a late hour and the crowd departed in a spirit of happiness and in anticipation of other good times of a similar nature.

The library hours are Thursday from 7 to 8 and Saturday from 2 to 5. Members of the Girl Reserves are on hand to receive and distribute

books. At present only residents of Multnomah county can obtain free use of books but it is hoped that different arrangements may be made in the near future. By the payment of a small sum residents of Clackamas may obtain the use of the books which are on hand now.

Making the Nation's Credit Liquid

Reservoir systems insure a steady water supply in every city and large town. The faucet is of very little value without the reservoir behind it.

The Federal Reserve Banking System is a simple and practical means of making the nation's credit liquid at all times.

As a member of that system, this bank is as independent of local conditions as it is humanly possible to make it.
