GRESHAM,

Announcement

Very little decline has taken effect in the line of Hardware but the coming year probably has in store cheaper goods for everybody.

As prices decline in the lines we handle, which includes General Hardware, Paints, Glass, Electrical and Plumbing goods, it is the intention of our house to follow these declines, giving our customers the benefit of Lower Prices regardless of what the goods cost us when they were bought.

This of course means an enormous loss to us, but we feel that prices in general for the past two or three years have been too high, and we are anxious for them to return to normal.

We want our customers and friends to feel that when they make a purchase of us they have paid not a cent more than they would other places and that the quality is unquestionable.

Yours for Lower Prices, Quality & Service.

Excerpt from last Sunday's Forward, according to World's Work: "Examination of the intellects of a great cross section of the American nation has actually betrayed that the average adult intelligence or mental capacity in the United States is but 13 or 14 years old." A recent issue of Forward makes the following comment: "Depends altogether upon the standard by which said intellect is measured. Measured in dollars and cents we would say that it is fully developed. Measured by the standard of morality and common decency? Ah, well! not much above the animal creation."

CEDAR AND VICTORY

Frank A. Vanderlip's Tribute to Prohibition.

On February 25, 1920 Mr. Frank A. Vanderlip, one of the foremost financiers of America, in a speech before the Economic club in the Hotel Astor, New York City said:

"With a clear insight and common sense we have amended our constitution and have prohibition, the greatest single economic factor looking toward material prosperity ever created by legislative enactment. I believe that the economic value of prohibition will eventually be an influence for the purity of society, the like of which will amaze ourselves and the world."
