If you have any interest whatever in laying aside something for the proverbial "Rainy Day", the opportunity this Company is now offering you should be grasped at once.

The habit of thrift inevitably brings money and property to the man who possesses it, who lives within his income, saves constantly, invests prudently. His industry never lags. He always has what the unthinking call "good luck." Fortune comes his way. He is favored. Year after year he sees his store increase. Fear of poverty is banished. He lives in plenty.

The desire to spend, which torments so many who have little to spend, does not bother him, for with the prosperity his thrift brings him he learns true values and comes to know and thoroughly dislike waste, indulgence and every form of extravagance.

We say again to the prudent business man or woman and to the thrifty wage earner that no better opportunity has ever been presented to the investors of this community than the 8 per cent five-year Gold Notes which are now being offered to our employees, customers and to the public.

A very large part of the entire offering of \$1,000,000 worth of these notes has already been subscribed. These securities are in steady and strong demand and at the rate they are now being taken up it is only a matter of a very few days before the entire offering will be exhausted.

The investment is safe and sound, both as to principal and interest, as you can readily ascertain by consulting your banker.

These notes are backed by the large number of public utility properties which supply a useful and necessary public service to nearly 40 communities in this district.

Furthermore, it is a home investment in a large and growing industry whose development and progress will inevitably assist the prosperity of the many communities served by it.

We urge you to call at any of the Company's offices and investigate this unusual opportunity at once.

NOTES IN DENOMINATIONS OF \$100, \$500 AND \$1000
In limited amounts the notes may be purchased on installment payments.
