

Fordson

The Fordson cuts the cost of preparing land almost to half of what it cost with horses. But even more important is the fact that the Fordson saves from thirty to fifty per cent of the farmer's time. And time saved—getting fields in shape to plant in the proper season, getting things done when they should be done—means money to the farmer. *Besides it helps greatly in solving the labor problem.*

As ever, the machine way is proving more efficient, faster, easier than the old hand way. In the factory the machine increases production, saves labor—produces more at less cost. And that is what the Fordson does on the farm. The Fordson way is the machine way of farming. *Besides it helps the labor problem.*

The Fordson's first cost is low; and the after or operating cost is low. It is a compact, easily handled tractor, backed by the greatest tractor service organization in the world.

The Miracle Wrought With

STUMPING POWDERS
Du Pont and Repauno Brands
(Pacific Northwest Products)

A FIELD of stumps and boulders, lying idle, unproductive—bringing money to the tax-collector and no one else. Next season a smooth, fertile field waving with wheat or corn or filled with fine potatoes. Such is the miracle being wrought every year on hundreds of farms in this state through the use of Du Pont or Repauno Stumping Powders

"Clear More Acres—Make More Money"

—that is the slogan of the progressive farmer of today. Last year was one of the biggest land-clearing years this state has ever known. This year will be a record-breaker. Simply because it is *sound business* to make unproductive land produce.

You do the job only *once* and pay for it only *once*. The first crop usually more than pays the cost. Then *every future year* each crop will add to your profits.

See our local dealer and order your season's supply. Always specify Du Pont or Repauno Stumping Powders. They are always dependable, high quality, low-freezing and no dynamites are cheaper.

This is some of the work that dynamite will do for you: It removes stumps and boulders, digs ditches, drains swamps, straightens streams, makes tree-holes, shatters hardpan. A 100-page book which explains the latest methods for doing this work will be sent free on request.

POWELL VALLEY

Powell Valley school was closed Thursday morning and will remain closed until Monday to await developments of the diphtheria situation.

Friends of Mr. and Mrs. Walter Kitzmiller of Dover will be pleased to learn of the arrival of a second son at their home a few weeks ago.

Mrs. Gust Carlson is at home again after her last operation. She is getting along very well.

Miss Hilma Trudson spent Thursday with the home folks and while at home attended the Lutheran Ladies' Aid society.

Mr. and Mrs. August Johnson and son Lester of Dyers Logging camp spent Thursday at the P. A. Johnson home.

A large number of friends and members of the Lutheran church attended the Ladies' Aid society which was entertained by Miss Nellie Johnson Thursday afternoon. The house was artistically decorated with Oregon grape, ferns and daffodils. After the regular program refreshments were served and a delightful social hour enjoyed.

The regular meeting of the Powell Valley Parent-Teacher association which was to have met next week will probably be postponed one week on account of the contagion scare. It is hoped to have something of an unusual nature for this meeting. The Home-making club will probably have charge of the refreshments. The girls of this club are working toward the plan of sending one or more of their number to O. A. C. summer school this year.
