**MORE MILES FOR LESS MONEY**

How far is it from London to Honolulu via the Panama Canal? About 7000 Miles!

Perfection Asbestos Protected Tires travel that many miles and more in many instances, because the tread rubber adheres to the carcass until it is worn out by road use, making them dependable and a real pleasure to motorists.

Having the Asbestos protection THEY ARE NOT AFFECTED by friction heat, moisture, oils, greases or gases. Having these qualities they are worthy of a trial.

**Acknowledges Prompt Settlement.**

Saturday night, March 12, I lost my dwelling by fire. I had insured in the Farmers Mutual Fire Relief association, but had never received my policy. When I notified the association of the fire, they told me the loss was covered, and adjusted the loss at once. In five days after the fire I received \$2100, the amount of my claim. The association has been fair and just, and its prompt settlement helps me to rebuild at once.
